Annex 3	RDC-NCR Resolution No. 09, Series of 2023 Approving and Adopting the Regional Development Plan for the National Capital Region (RDP-NCR) 2023-2028	40

Overview of the Regional Economy, Development Context, and Trends

The National Capital Region (NCR), more popularly known as Metro Manila, is the 18th largest megacity in the world. It is the seat of the Philippine Government. Considered as the country's premier region, NCR is the center of political, cultural, and economic activities and the key driver of urban development in the Philippines. As one of the 12 defined metropolitan areas in the country, it exerts the most significant impact on commerce, finance, media, art, fashion, research, technology, education, and entertainment, both locally and abroad.

Economic Trends

Gross Regional Domestic Product

The region, as the premier center for finance and commerce in the Philippines, leads the economic development trajectory of the country. Serving as the country's political, financial, and economic capital, NCR is the top contributor to the Philippine Gross Domestic Product (GDP). It continually leads the nation's overall economic activities, sharing the highest contribution to the GDP with 31.4 percent in 2024. Despite the immense effect of the COVID-19 pandemic on its economy, the region contributed the largest share in GDP growth among all regions at 2.3 percent of the total 7.6 percent.

While Metro Manila leads in economic development among regions in the country, it still struggled to recover from the effects of the pandemic. The repeated imposition of lockdowns and mobility restrictions in the NCR resulted in the contraction of the region's economic growth by -10.0 percent in 2020, contributing PHP 5.6 trillion to the national GDP. The most affected industries were accommodation and food services, transportation, and other services, such as personal and household services, and repair and maintenance services, among others.

Moreover, the number of affected business establishments skyrocketed, which led to an increase in the region's unemployment rate and a decrease in household consumption by 8.5 percent.

In 2021, the NCR opened its boundaries to other regions as the country aimed to revitalize the economy by lifting mobility restrictions and allowing businesses to operate with more workers, increasing their production and outputs. This resulted in an increase in domestic travel, improvement in the production of goods and services, and a boost in domestic consumption, which garnered a 4.4 percent growth rate or a total of PHP 5.8 trillion. The economic growth of the region further improved in 2022, registering PHP 6.2 trillion Gross Regional Domestic Product (GRDP) and 7.2 percent growth rate.

Over the past years, NCR recorded the highest per capita GRDP compared to other regions in the country, registering a total of PHP 405,655, PHP 418,554, and PHP 443,782 from 2020 to 2022. Moreover, despite the -11.1 percent decrease in 2020 caused by the ongoing global health crisis, the region's per capita GRDP managed to rebound by 3.2 percent in 2021 and 6.0 percent in 2022 through the efforts of the government and private sectors in opening Metro Manila's boundaries by lifting community quarantines and easing mobility restrictions.

Labor and Employment

In 2019, NCR recorded a household population of 15 years old and over of approximately 9.8 million and registered a high employment rate of 94.0 percent. In the same year, unemployment and underemployment rates were 6.0 and 5.3 percent, respectively. However, the global health crisis in 2020 caused a temporary and permanent halt in the operations of business establishments in the region, as the cost of production outweighed the generated sales in the year, resulting in the layoff of workers. This affected the labor market and finding jobs became difficult. The employment rate in NCR decreased to 88.3 percent, while the unemployment and underemployment rates ballooned to 11.7 percent and 9.2 percent, respectively.

In 2022, improvements in the labor market were seen as various industries started expanding their operations and hiring new laborers. Virtual job fairs were launched in the region and the awarding of safety seals to establishments has helped build the workers' confidence in the safety of their workplaces. As a result, the employment rate reached 94.4 percent, while unemployment and underemployment rates declined to 5.6 percent and 7.4 percent, respectively.

Inflation

The region recorded a 2.7 percent inflation rate for all commodity items in 2021. Due to the pandemic, the NCR exhibited a shift in the needs and preferences of its consumers, affecting the inflation rate trend for some of the available commodities and services. Among these commodities, financial services, alcoholic beverages and tobacco, and transport posted the highest inflation rates in NCR. Financial services registered the highest inflation rate at 34.5 percent, which may be attributed to the high interest rates of loans and credits provided by some credit sources, as economic uncertainties remained a challenge in 2021. These sources include microfinance non-government organizations, government institutions, cooperatives, lending/financing institutions, banks, and pawnshops. Meanwhile, the 8.4 percent change in the prices of alcoholic beverages and tobacco was due to the law imposing higher taxes on these products implemented by the government. The increase in crude oil prices in the local and international markets also resulted in higher transportation fares, and the limited capacity of public transport vehicles to ensure the safety of commuters further put pressure on the transport industry, causing the price changes.

The average inflation in NCR went up from 2.7 percent in 2021 to 5.1 percent in 2022. Among commodity groups, restaurants and accommodation services primarily contributed to the uptrend of inflation in the area, registering a 9.5 percent inflation rate in December 2022 from 8.8 percent in the previous month. This was followed by housing, water, electricity, gas and other fuels, with a 4.0 percent inflation in December 2022 from 3.7 percent in the previous month.

Demographic Trends

Population and Density

NCR reported a total population of 13,484,462 based on the latest 2020 Census of Population and Housing (2020 CPH), making it the 2nd most populous region in the country. The region accounts for 12.37 percent of the 109,033,245 total population from the 17 administrative regions. This indicates a 0.97 percent growth from 2015, placing NCR as third among regions with the slowest population growth compared to Bangsamoro Autonomous Region in Muslim Mindanao (BARMM) (3.26%), Region IV-A (2.48%), and Region III (2.17%). The cities with the highest population are Quezon City, City of Caloocan, and the City of Manila. These are also the cities with more than a million inhabitants and, combined, comprise 47.0 percent of the region's total population. Moreover, NCR is extremely dense, with a population density of 21,765 persons per square kilometer relative to the national figure of 363 persons per square kilometer. The City of Manila, City of Mandaluyong, and Pasay City are the most densely populated cities in the region.

Family Income and Expenditure

In 2021, the NCR recorded an average annual family income of PHP 383,700.00, with the City of Makati, City of San Juan, and City of Marikina posting the highest average earnings of families within the region. This is lower than the PHP 400,000.00 average family earnings reported in 2018, representing a 4.1 percent decline. This may be attributed to the discharge of employees in some businesses as they face negative returns in their revenues due to the pandemic, resulting in unemployment and loss of source of income in some families.

Likewise, the annual average expenditure of families in the region declined to PHP 295,300.00 in 2021 from the PHP 321,000.00 reported in 2018, representing an 8.0 percent reduction in the average family expenditure. The effects of the pandemic on the employment status in the region, as well as on the daily life of consumers, may have contributed to the shift in expenditure patterns while taking into consideration the high level of uncertainties in the economy's recovery.

Poverty

Among regions, NCR recorded the lowest poverty incidence among population in 2021 at 3.5 percent, representing a total of 482,483 individuals living below the regional annual per capita poverty threshold of PHP 32,978.00.

This, however, is higher than the 2.2 percent or 302,166 individuals living under the identified annual poverty threshold of PHP 28,682.00 in 2018. The increase may be attributed to the ongoing health crisis that disrupted the economic activities in all cities and a lone municipality in the region, resulting in the loss of income for some families. The City of Taguig (6.5%), City of Caloocan (6.0%), and City of Navotas (5.1%) registered the highest poverty incidence in Metro Manila in 2021.

A slight increase in subsistence incidence among population was likewise observed in the region in 2021, recording 0.5 percent or 63,559 individuals living below the annual per capita food threshold of PHP 23,028.00. Despite the region posting a low subsistence incidence, Pasay City (1.2%), City of Navotas (0.9%), and City of Pasig (0.8%) topped the list among the 17 local government units in NCR.

Regional Spatial Development Framework

This Chapter provides the overall direction for the physical development of the region based on updated information, such as its key regional and sub-regional centers and major infrastructure projects and initiatives to address vulnerabilities to disasters. It also provides general guidance to LGUs in the formulation and/or updating of their respective Comprehensive Land Use Plans (CLUPs).

Location and Land Area

NCR is strategically located in the middle of Luzon Island, on the eastern coast of Manila Bay, and at the mouth of Pasig River. It lies along the rugged lands of the Marikina Valley and the Sierra Madre mountains in the east, bounded by Manila Bay in the west, Central Luzon in the north, and Laguna de Bay in the south.

NCR is the smallest region in the country, with a land area of only 619.54 square kilometers. It occupies less than one percent (0.20%) of the country's total land area of 300,000.00 square kilometers. The region is composed of 17 LGUs, namely, the City of Manila, Pasay City, City of Caloocan, Quezon City, City of Makati, City of Mandaluyong, City of Malabon, City of San Juan, City of Navotas, City of Muntinlupa, City of Valenzuela, City of Las Piñas, City of Parañaque, City of Taguig, City of Marikina, City of Pasig and the Municipality of Pateros. Quezon City is the biggest LGU in terms of land area with 171.71 square kilometers or more than one-fourth of the total land area of NCR.

Land Use Patterns

Metro Manila is relatively unique in East Asia, with a polycentric urban structure evident in its several distinct central business districts. Metro Manila, however, is very much shaped by the private sector, with most LGUs accepting a passive land use development role. It is only through zoning ordinances (ZO) that LGUs control land use development, with major interventions such as Catalytic Infrastructure/Development being left to external or higher actors.

Similar to other premier urban centers in the world, the region attracts migrants from all over the country searching for better economic opportunities, jobs, and education. This urbanization trend of migration has significantly influenced the land-use pattern within the metropolis and the quality and delivery of essential services to its people, such as public transportation, education, health, and housing. In NCR, land use has mainly responded to the socio-economic demands of the growing population and the increasing density of informal settlements in city centers.

Major Infrastructure Projects

Among the functions of the Regional Development Council (RDC) - NCR is to review and evaluate programs or projects of national and regional government agencies that have an impact on the region as part of the requirements for endorsement to the National Economic and Development Authority - Investment Coordinating Committee (NEDA-ICC) or other agencies as required by the proponent. These include the endorsement of proposed development projects such as infrastructure, among others.

Various infrastructure projects continue to connect and strengthen the region's resources with nearby provinces and further support the region's economic progress, including local development. For the succeeding years of the Plan's implementation, the infrastructure sector will provide different modes of transportation, including the construction of road networks and railway projects within Metro Manila.

Initiatives to Address Vulnerabilities to Hazards

The rapid urban growth in the NCR applies tremendous pressure on the metropolis' existing social and economic system. It aggravates existing environmental concerns, such as air and water pollution, waste management, health and sanitation, and the inadequacy of land and water resources in urban areas. These issues are further complicated by the effects of climate change, which brings forth more significant problems for the metropolis, such as extreme weather conditions and vulnerabilities to disasters (e.g., flooding and landslides).

The RDP-NCR 2023-2028 advocates for strategies and interventions towards a resilient and sustainable development through climate change adaptation, mitigation, and disaster risk reduction (CCAM-DRR). Strategies are aligned with the seven (7) priorities of the National Climate Change Action Plan (NCCAP) 2011-2028, specifically food security, water sufficiency, ecosystem and environment stability, human security, climate-smart industries and services, sustainable energy and transportation, and knowledge and capacity development.

Guidance to Local Land Use Planning

Anchored on the region's vision to foster a green, connected, and resilient metropolis, local planners shall be guided in crafting and formulating their land use plans. Said plans shall integrate strategies towards connectivity and vulnerability reduction.

Connectivity

Connectivity shall be strengthened to allow urban-rural linkages and improve access and markets with nearby provinces and regions. Strategies to enhance connectivity among and within urban centers will be prioritized by focusing investments on the expansion of mass rapid transit, designing transportation systems as the primary driver of spatial development in the region, and improvement of bus routes and services.

To address increases in population and demand of transport services, efficient intermodal transportation systems will be promoted, which connect various modes of transportation such as railway networks, buses, and jeepneys, among others. Active transport networks will also be expanded for inclusivity and safety of active mobility networks.

Vulnerability Reduction

Local land use plans shall integrate vulnerability reduction measures, including climate change adaptation and mitigation. Such efforts are aligned with developing resilient infrastructure facilities and communities. These would include flood control projects, health facilities, solid waste management facilities, roads, and bridges, among others.

Moreover, regional line agencies and local governments shall continue to mainstream disaster risk reduction and climate change adaptation and mitigation into development plans and programs through capacity building on disaster prevention and preparedness, improvement of local risk information, and protection of green spaces and ecosystems to reduce impacts of climate change.

Overview of the RDP 2023-2028 Strategy Framework

The Regional Development Plan-National Capital Region (RDP-NCR) 2013-2028 formulated in accordance with the Philippine Development Plan (PDP) 2023-2028, is anchored on the President's 8-Point Socioeconomic Agenda in the near and medium term and is geared towards the attainment of the country's long term vision – AmBisyon Natin 2040. The RDP-NCR follows the development agenda of the PDP 2023-2028, highlighting the role of the regions in achieving national development goals and objectives.

In pursuit of a *matatag, maginhawa, at panatag na buhay* as depicted in AmBisyon Natin 2040, the Region's development framework is anchored on the goal of the PDP 2023-2028: "Economic and social transformation for a prosperous, inclusive and resilient society."

The RDP-NCR 2023-2028 adopted the broad strategies of the PDP 2023-2028 (refer to Figure 3.1).

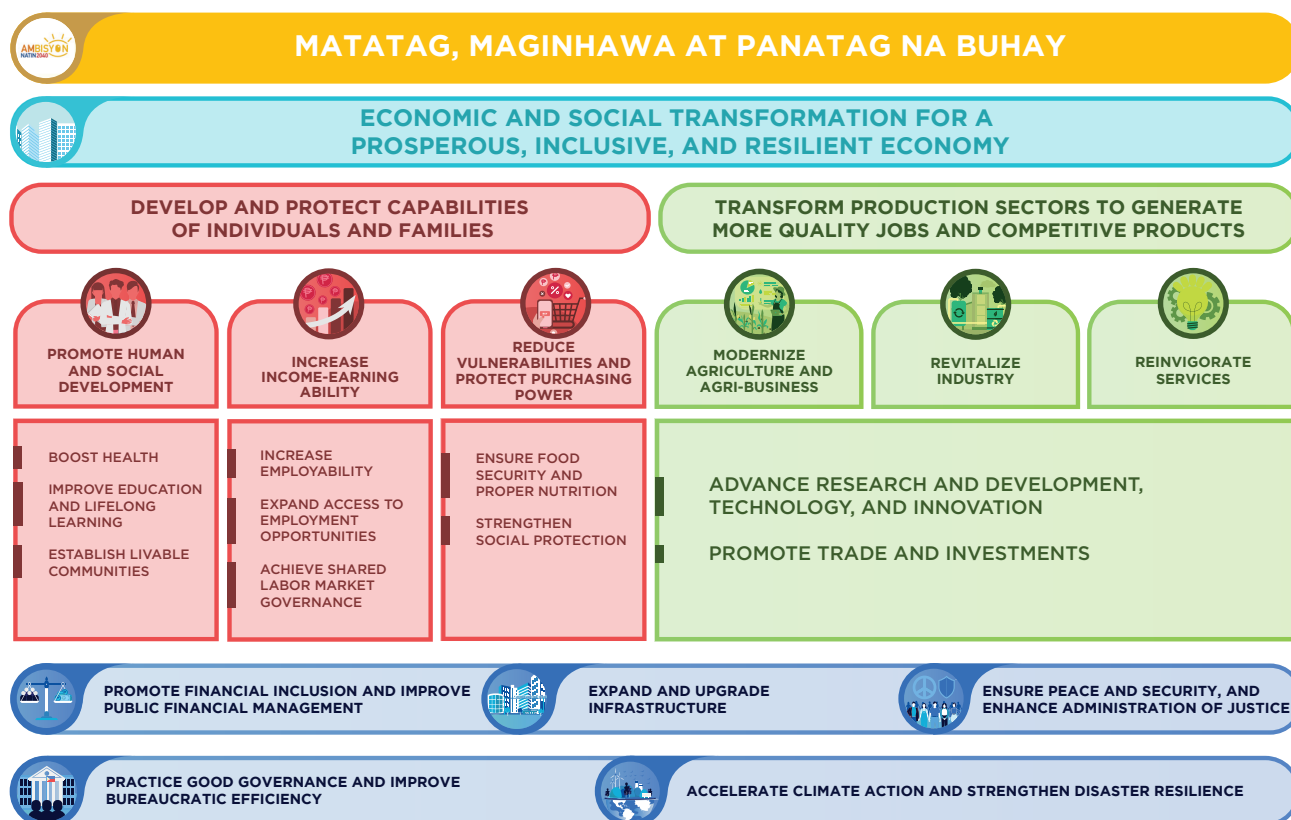

Figure 3.1. PDP-RDP 2023-2028 Strategy Framework

Plan Targets

The monitoring of the headline indicators will be essential in identifying the direction of the overall growth of Metro Manila.

CORE INDICATORS	BASELINE YEAR	BASELINE VALUE	END OF PLAN TARGET(2028)	REPORTING AGENCY
Gross Regional Development Product (GRDP) Growth Rate	2022	7.2	TBD	Philippine Statistics Authority (PSA)
Poverty Incidence among Population	2021	3.5	TBD	PSA
Unemployment Rate	2022	5.6	TBD	PSA
Food Inflation Rate	2022	5.7	TBD	PSA

Promote Human and Social Development

In line with achieving economic and social transformation for a prosperous, inclusive, and resilient society, the Regional Development Plan - National Capital Region (RDP-NCR) will develop and protect the capabilities of individuals and families as well as uplift their overall well-being to enable them to live long and healthy lives provided with learning opportunities and resilient communities.

This Chapter lays down the lessons learned and key strategies to overcome the challenges in relation to human and social development to boost the health of Filipinos, improve education and lifelong learning, and establish livable communities.

Subchapter 4.1 Boost Health

The region envisions Filipinos to live long and healthy lives through quality healthcare, improved access, and other services. The chapter presents the concerns and challenges on health and the strategies to better support physical, mental, and social well-being through healthy choices, access to health services, and strengthening of health systems. It consists of four outcomes: (a) social determinants of health improved, (b) healthy choices and behavior enabled, (c) access, quality, and efficiency of health care improved, and (d) health systems strengthened.

Strategies

Outcome 1: Social determinants of health improved

- Ensure that communities, workplaces, and schools support physical, mental, and social well-being for all
- Foster a whole-of-government, whole-of-society approach to health

Outcome 2: Healthy choices and behavior enabled

- Increase health literacy
- Promote appropriate health-seeking behavior

Outcome 3: Access, quality, and efficiency of health care improved

- Secure sustainable and equitably distributed health infrastructure and human resources
- Promote strategic purchasing for quality, efficiency, and cost-effectiveness
- Harness complementary private sector partnerships for health care access and delivery
- Establish integrated, innovative, and quality health service delivery systems

Outcome 4: Health systems strengthened

- Increase local government investment for health
- Enhance local capacity for health system leadership, management, anticipatory governance, and resilience to public health emergencies
- Advance responsive regulatory environments for addressing emerging development and disruptions
- Encourage collaboration between local health facilities and personnel with reputable research hospitals or health research institutions

Subchapter 4.2 Improve Education and Lifelong Learning

In improving education and learning competencies, access to high-quality lifelong learning opportunities in the region will be ensured to enable the people to realize their potential and become globally competitive, smart, and innovative with full participation in society and work. The education sector will continue to implement strategies, programs, and projects to achieve the required 21st-century learning skills and competencies through the diversity of learning materials and facilities, enhanced training programs, and strengthened collaboration among stakeholders. This Chapter consists of three outcomes: (a) quality, inclusive, adaptive, resilient, and future-ready basic education for all achieved, (b) globally competitive Technical Vocational Education and Training (TVET) and higher education, and improved research output attained for a broader knowledge economy, and (c) human capital governance improved.

Strategies

Outcome 1: Quality, inclusive, adaptive, resilient, and future-ready basic education for all achieved

- Develop and implement catch-up programs to address learning losses
- Ensure access to quality learning resources, equipment, and facilities
- Adopt modern learning spaces
- Improve the competencies of teachers

Outcome 2: Globally competitive TVET and higher education and improved research output attained for a broader knowledge economy

- Implement structural reforms in local universities and colleges to strengthen linkages with TVET communities
- Optimize the roles of universities as innovation hubs and incubation centers
- Pursue transnational knowledge co-creation linkages with HEIs
- Provide more research-oriented scholarships and grants

Outcome 3: Human capital governance improved

- Strengthen school-based management (SBM)
- Rationalize workload of teachers

Subchapter 4.3 Establish Livable Communities

The National Capital Region (NCR) aims to uplift communities, both existing and new, that offer equitable, inclusive, and resilient opportunities for improving human well-being while contributing to the community's economic vitality. Establishment of the livable communities have the potential to enhance public health, the economy, social inclusion, and environmental and social sustainability. As such, uplifting livable communities will be achieved by ensuring the following programs to include livelihood opportunities, transit-oriented development, environmental quality and social sustainability.

Outcome 1: Social Environment Promoted

- Improve access to food, health, education, safe drinking water, basic sanitation, social services, social protection, and quality jobs
- Strengthen social cohesion
- Build disaster preparedness and resilience of communities

Outcome 2: Built environment upgraded

- Provide adequate housing
- Adopt viable land acquisition approaches and fast-track the inventory of lands for socialized housing development

Outcome 3: Environmental quality improved

- Installation of additional air quality monitoring stations
- Enhance green spaces and intensify greening programs
- Enhance management of waste and continue developing incentives and awards as well as promotion of new technologies
- Construction of modular wastewater treatment plans for micro, small, and medium enterprises (MSMEs)
- Intensify monitoring and management of air and water quality
- Maintenance or replacement of analyzers, as applicable
- Strengthen and effectively enforce the existing environmental laws, policies and regulations

Outcome 4: Responsive Governance Advanced

- Improve government accessibility
- Sustain community livability planning and implementation

Increase Income-Earning Ability

Increasing income-earning ability involves the availability of quality work and skills that are aligned not just with current in-demand requirements but also with critical and emerging skills in the 21st century.

This Chapter highlights the challenges in increasing income-earning ability and the outcomes to be pursued to address these, namely: (a) employability increased, (b) access to employment opportunities expanded, and (c) shared labor market governance achieved.

Strategies

Outcome 1: Employability increased

- Develop innovative and responsive technical-vocational education and training (TVET)
- Ensure education and training sectors' alignment with the labor market requirements

Outcome 2: Access to employment opportunities expanded

- Strengthen public employment service offices (PESOs)
- Integrate and strengthen all employment facilitation services, including career development support
- Anticipate skills needs in priority sectors
- Strengthen technical capacity to develop dynamic and responsive labor market information systems

Outcome 3: Shared labor market governance achieved

- Improve capacity of regional labor market institutions
- Strengthen coordination with industry boards at the local level

Reduce Vulnerabilities and Protect Purchasing Power

Anchored on AmBisyon Natin 2040, the Regional Development Plan National Capital Region (RDP-NCR) aims to uplift the well-being of Filipinos by securing knowledge and resources for their own and their families' futures.

The plan highlights key actions towards its overall outcome of reducing vulnerabilities and protecting purchasing power. These include strategies to keep food prices within reach of every Filipino by ensuring the availability, sufficiency, and accessibility of food commodities, as well as promoting nutrition-related interventions. It is also vital that vulnerabilities are addressed by strengthening the social protection system to manage risks and promote resiliency.

Subchapter 6.1 Ensure Food Security and Proper Nutrition

The plan highlights the importance of food security and nutrition amid the threats and challenges to the supply and accessibility of nutritious and safe food in the region. This fully supports the attainment of Sustainable Development Goal No. 2 on Zero Hunger and AmBisyon Natin 2040, wherein Filipinos will have access to sufficient, stable, affordable, and nutritious food to ensure long and healthy lives.

The strategies set forth are vital to the region's food supply and access, given the existing gap between demand and the ability to produce its own food. Therefore, interventions in the region should be linked to the (a) sufficiency and stable supply of food commodities; (b) access of consumers to affordable, safe, and nutritious food; and (c) improvement of nutrition across all ages.

Strategies

Outcome 1: Sufficient and stable supply of food commodities attained

- Boost productivity and resiliency of the local agriculture and fisheries sector at the regional level
- Diversify food supply sources by augmenting local supply through regional trade and maximizing the use of non-traditional agricultural areas for subsistence supply of food commodities
- Strengthen buffer stocking of rice and other basic food items for emergencies and disasters
- Reduce and prevent food losses or waste

Outcome 2: Access of consumers to affordable, safe, and nutritious food expanded

- Promote private investment in facilities, transport, and logistics systems to bring safe and nutritious food closer to consumers
- Ramp up the promotion of the use of digital platforms for marketing, delivery, and payment transactions
- Improve food transportation and distribution processes to hasten and ensure unhampered movement of food products
- Strengthen price and supply monitoring of food commodities

Outcome 3: Nutrition across all ages improved

- Promote a healthy lifestyle and a culture of active health-seeking behavior
- Strengthen nutrition-specific, nutrition-sensitive, and enabling interventions especially at the local level
- Improve nutrition governance in local government units

Subchapter 6.2 Strengthen Social Protection

The region supports the attainment of a transformative Social Protection (SP) system that allows its citizens to manage and address risks, vulnerabilities, and social inequities. This is to fully realize AmBisyon Natin 2040, which aims to provide Filipinos with a strongly rooted, comfortable, and secure life.

The Plan aims to strengthen SP through (a) mitigating individual and lifecycle risks, (b) managing economic risks, (c) mitigating natural, health, climate, and other human-induced hazards, and (d) achieving a universal, modern, and integrated social protection system.

Strategies

Outcome 1: A universal, modern, and integrated Social Protection system achieved

- Establish a standard menu of rationalized programs for the social protection floor guarantees
- Ensure a timely and responsive financing for social protection programs in emergencies
- Implement a Social Protection Communication Plan and Strategy
- Ensure the establishment and updating of social registries
- Create synergies among stakeholders in designing and delivering programs
- Promote financial literacy for better awareness and use of financial instruments
- Enhance and promote social insurance products to encourage coverage for all Filipinos
- Strengthen services and facilities for digital payments of cash transfers

Outcome 2: Individual and lifecycle risks mitigated

- Deliver improved social welfare and protection programs to senior citizens
- Ensure a regional convergence approach to help the marginalized and vulnerable groups
- Implement a holistic approach to prevent child labor
- Protect children from physical and mental distress
- Strengthen implementation of laws protecting women
- Ensure safe and orderly overseas migration

Outcome 3: Economic risks managed

- Strengthen existing livelihood and public works/cash for work programs implemented by various government agencies

Outcome 4: Natural, health, climate, and other human-induced hazards mitigated

- Further strengthen coordination and collaboration among the Metro Manila Disaster Risk Reduction and Management Council, LGUs, and the private/civil society organizations
- Ensure formulation and updating of regional and local disaster-related plans for Metro Manila
- Ensure the implementation of mental health and psychosocial services in the disaster response package
- Establish permanent and resilient evacuation centers
- Develop and implement anticipatory delivery mechanisms for various types of disasters and emergencies

Modernize Agriculture and Agribusiness

The NCR, which leads the economic development of urban areas in the country, is predominantly a services- and industry-driven region. However, the Agriculture Sector still plays an important role in its overall development despite having the least contribution to its economic outputs. Metro Manila LGUs have been actively engaging in agriculture-related activities such as but not limited to aquaculture, capture fishing, processing, trading, and marketing.

To enhance the livelihood of fisherfolk and agri-entrepreneurs in Metro Manila in the next six years, this sectoral plan for agriculture will focus on creating opportunities for the key players in the Agriculture, Forestry, and Fisheries (AFF) Sector to participate and engage in value-adding activities, improve product competitiveness to access markets and production inputs, and intensify support to the sector through investment in facilities. Further, this plan will pave the way for collaboration and linkages with other NGAs, LGUs, the private sector, NGOs, and the academe.

The identified strategies under this plan will lead to a) enhanced efficiency of AFF production, and b) expanded access to markets and AFF-based enterprises in the NCR.

Strategies

Outcome 1: Efficiency of Agriculture, Forestry and Fisheries (AFF) production enhanced

- Improve access of primary producers to production inputs

Outcome 2: Access to markets and AFF-based enterprises expanded

- Create opportunities for the primary producers to participate in value-adding activities of AFF products
- Support the Development of Blue Economy
- Improve physical and digital infrastructure

Outcome 3: Resiliency of AFF Value Chains improved

- Develop and mainstream early warning systems/anticipatory mechanisms
- Develop and promote innovative insurance schemes
- Integrate climate and disaster risks in AFF planning and programming

Outcome 4: Agricultural institutions strengthened

- Improve coordination and convergence of government agencies in planning, programming, and budgeting
- Establish and consolidate cluster cooperatives for efficient distribution of interventions from the government

Revitalize Industry

The NCR remains as one of the top contributors to the national economic output of the Industry Sector of the Philippines and covers a large percentage share in the total business establishments in the country. It provides thousands of business opportunities to Micro, Small, and Medium Enterprises (MSMEs) and generates millions of jobs that contribute to the overall economic growth of the region.

To further the development of the sector, various steps shall be taken including the modernization of the sector, upgrade of MSMEs through product enhancement and innovation, and development of human capital to meet the required skills for industrialization. These strategies will address the gaps in the industry supply chains and will open opportunities to move the sector's key players up the value chain.

Likewise, these efforts will a) expand the domestic market production and supplier base, b) improve the competitiveness of key players, and c) create a dynamic industry ecosystem.

Strategies

Outcome 1: Domestic market production and supplier base expanded

- Enhance business-matching activities at the local level
- Intensify support to industries producing for the domestic market
- Foster regional industrialization
- Undertake industry-specific R&D and technology adoption

Outcome 2: Moving up the value chain achieved

Competitiveness Improved

- Address gaps in industry supply chains
- Accelerate the digitalization and innovation of MSMEs and startups
- Provide assistance for the formulation of business continuity plans in all industries

Dynamic industry ecosystem created

- Embrace Industry 4.0 for technology mature firms
- Upskill and reskill workers to adapt to technology

Reinvigorate Services

The Service Sector accounts for a large share of the region's economy and main source of employment. It is composed of a diverse range of industries such as transport, energy, financial services, information and communication services, retail and business services, education, and health, that plays a vital role in socioeconomic development.

The Chapter focuses on the performance of the service sector in the region. It provides an assessment of the sector and discusses the challenges it faces. It also delves into the sector-specific and cross-cutting strategies that are designed to attain the desired outcome of reinvigorating the Service Sector in the region.

Strategies

Outcome 1: Market expansion achieved

- Promote sustainable, inclusive, and resilient multidimensional tourism
- Accelerate e-commerce and creative industries
- Encourage creation of consumer interest groups

Outcome 2: Creativity and innovation in services value proposition strengthened

- Increase access of MSMEs to financing programs, digital technologies, and capacity building programs
- Ensure the sustainable supply of a competitive, creative, and skilled workforce

Outcome 3: Inter-sectoral linkages enhanced

- Facilitate physical connectivity and convenience to move people and goods
- Digitalization of services, and improve business environment
- Strengthen data collection ecosystem for market intelligence, insights, and industry studies

Advance Research and Development, Technology, and Innovation

Research and Development (R&D) generates new knowledge and processes that can contribute to transforming production sectors to generate more quality jobs and competitive products through technology development, adoption, and innovation.

The envisioned strategic outcomes of this Chapter are as follows: (a) basic research and development and knowledge creation strengthened; (b) market-driven and customer-centered research and development advanced; (c) technology extension, adoption, utilization, and commercialization scaled-up; and (d) innovation and entrepreneurship accelerated.

Strategies

Outcome 1: Basic Research and Development and Knowledge Creation Strengthened

- Nurture a supportive environment for R&D
- Improve S&T infrastructure
- Re-engineer basic, technical-vocational, and higher education
- Aggressively increase regional expenditure in R&D and its commercialization

Outcome 2: Market-Driven and Customer-Centered Research and Development Advanced

- Create mechanisms for integrating a market/user information system and provide analytics
- Integrate creative arts and social sciences with science and technology
- Carry out R&D, technology, and innovation in mutually beneficial private-public collaborations
- Increase number of partnerships for R&D
- Aggressively increase international collaborators and global corporate R&D investors

Outcome 3: Technology extension, adoption, utilization, and commercialization scaled-up

- Accelerate commercialization of market-oriented and inclusive STI products
- Provide support and incentives for Intellectual Property management
- Intensify the technology transfer, extension, and commercialization of publicly funded technologies
- Strengthen the DOST Clustered Area S&T Offices (CASTOs)

- Increase public-private partnerships for the utilization and commercialization of R&D products and avenues for the creation of these partnerships
- Increase venture capital investments

Outcome 4: Innovation and Entrepreneurship Accelerated

- Support globally competitive industries and an agile workforce
- Accelerate business mentoring and scientific technical assistance
- Accelerate the implementation of the Philippine Innovation Act
- Establish and promote innovation hubs and other similar collaborative platforms
- Increase financing opportunities for innovation-related projects or activities
- Increase investments in financial and entrepreneurial literacy

Promote Trade and Investments

Metro Manila is at the forefront of trade in the country, with tremendous potential for exports and investments. The presence of numerous central business districts makes the region attractive to investors. Given the impact of COVID-19 pandemic on the trade and investment sector, its continued and intensified promotion is integral to the increased generation of economic activities and livelihood opportunities.

By 2028, two outcomes are to be achieved, namely: (a) export sectors restored, sustained, and strengthened and (b) total investments increased and targeted to boost trade, skills upgrading, and sustainability. This Chapter will assess the issues and challenges faced by Metro Manila and identify key strategies in achieving the goals.

Strategies

Outcome 1: Export sectors restored, sustained, and strengthened

- Improve support services and infrastructure for export development
- Strengthen value and supply chain linkages

Outcome 2: Total Investments Increased

- Capacitate LGUs to make their localities investment-ready and friendly
- Promote the Strategic Investment Priority Plan

Promote Financial Inclusion and Improve Public Financial Management

Among the enabling and supporting measures to achieve an economically progressive and resilient Metro Manila is an inclusive and sustainable financial system and a transparent, reliable, and efficient public financial management system. With the right mix of financial products, onboarding strategies, and incentives, the region envisions that more individuals, including small market vendors, transport groups, and business owners, will take advantage of various digital payment and banking options to support their business expansions and personal aspirations.

Furthermore, with public financial management strategies that are open to new technologies and sustainable revenue and credit sources, it is foreseen that better revenue generation and an effective collection and tax administration system will support transparent and efficient expenditure management.

Strategies

Outcome 1: Financial inclusion broadened and deepened

- Expand reach of financial access points through an inclusive digital finance ecosystem
- Strengthen consumer protection and promote financial literacy through proactive financial education programs

Outcome 2: Financial innovation strengthened and accelerated

- Promote establishment of financial innovation techno-hubs
- Promote inclusive financing for Micro, Small and Medium-sized Enterprises (MSMEs)
- Promote and support the sustainability agenda by encouraging households and businesses in the region to adopt sustainable practices
- Encourage and support projects that are eligible for sustainable finance

Outcome 3: Local Government Finance Strengthened

- Strengthen the capacity of LGUs to raise more revenue and implement devolved functions
- Diversify and explore alternative sources of financing
- Develop LGU bond market and establish LGU credit rating system
- Promote digitalization

Expand and Upgrade Infrastructure

The infrastructure sector plays a vital role in the developmental progress of NCR, the country's premier region, as it steers both physical and digital connectivity and delivers support services for water, energy, and social services. The NCR shall endeavor to provide resilient infrastructure to address the region's needs by achieving seamless and inclusive connectivity, providing affordable and clean energy, securing water supply and climate resilient infrastructure, and providing social infrastructure.

Strategies

Outcome 1: Seamless and inclusive connectivity achieved

- Move people, goods, and information through modernized and expanded transport and digital infrastructure of the private sector
- Address universal mobility and connectivity

Outcome 2: Affordable, accessible, reliable, and clean energy provided

- Support the modernization and delivery of energy
- Enhance the delivery of clean energy

Outcome 3: Water security, ecological integrity of water systems, and resiliency to water hazards attained

- Upgrade and expand water infrastructure
- Strengthen Integrated Water Resources management implementation

Outcome 4: Enhanced support to social development provided

- Adequate health, education, solid waste management infrastructure provided

Cross-sectoral approach in development planning, programming, and asset management in infrastructure enhanced

Ensure Peace and Security and Enhance Administration of Justice

As the capital region of the country, Metro Manila plays a vital part in the economic, institutional, and social development of the country. It houses not only the majority of headquarters or main offices of various public and private institutions, organizations, and companies within the domestic network, but also, our national linkage to the international network, affairs, and activities. Hence, ensuring peace and security by protecting people from criminality, hazards, and threats is critical in sustaining people's and other entities' confidence in retaining their existing investments/businesses and establishing new ones.

Accessibility to and fair accounting of justice are vital in translating people's confidence into trust that any dispute, fraud and unlawful acts can be properly apprehended and subjected to the law. The effective management of law offenders also contributes to public trust in the justice system. The administration of justice, therefore, is pivotal to achieve all these.

Subchapter 14.1 Ensure Peace and Security

As the region with the largest population and number of establishments, the NCR faces greater challenges in preserving peace and security. Aside from protecting persons and properties from criminality, the local government of Metro Manila is also tasked to protect the public from the influence and any harmful acts of rebels against the government.

Metro Manila is also susceptible to hazards (e.g., fire) and threats (e.g., cybercrime). Hence, private properties and intangible assets, such as human integrity, dignity, and freedom are also harmed or exploited through cybercrime.

All these shall be protected and safeguarded by law enforcers to build public confidence that peace and security is ensured at all times.

Strategies

Outcome 1: Protection and development of conflict-affected communities sustained

- Strengthen convergence of programs and ensure that development interventions are conflict-sensitive and peace-promoting
- Social cohesion as key component of peacebuilding

Outcome 2: Quality of life of people safeguarded from criminality

- Promote a holistic approach to countering the proliferation of illegal and dangerous drugs
- Strengthen and expand police engagements with communities on crime deterrence, reporting, and resolution
- Strengthen local partnerships to counter and prevent threats from terrorism, violent extremism, radicalization, transnational crimes, and other non-traditional security threats

Outcome 3: Protection and safety from natural hazards and other security threats ensured

- Improve capacity and capability of security forces and LGUs on humanitarian assistance and disaster response and protection services to mitigate impacts of natural hazards and other emergencies
- Protect critical infrastructure and strategic assets

Cross-Cutting Strategies

Pursue an integrated, transparent, people-centered, and human rights-based peace and security policy

- Sustain compliance of LGUs to good governance principles and of security institutions on human rights and rule of law
- Ensure gender mainstreaming and protection of vulnerable groups in conflict-affected communities
- Mobilize a broad-based constituency for peace

Subchapter 14.2 Enhance Administration of Justice

The public's trust in the government's ability to preserve peace and security is linked to the people's confidence in delivering justice to everyone. It is essential therefore to provide an effective system of justice that ensures fair access to free or affordable legal service to all; a swift, fair, and just decision; and an improved quality of life for persons deprived of liberty (PDLs) and their reintegration in the community to boost morale and peace and security in the region.

Strategies

Outcome 1: Quality and efficiency in disposition of cases improved

- Establish and/or strengthen coordination mechanisms to improve sector efficiency and accountability
- Create a Central Evidence Unit to store and handle evidence in criminal cases
- Improve human resource allocation in the justice sector

- Adopt sectoral training for all stakeholders in commercial disputes
- Advance the use of alternative dispute resolution mechanisms at all levels
- Maximize the use of digital technology and build a robust, efficient, and disaster-resilient ICT architecture for the justice sector
- Implement the integration of the unified crime index to improve uniformity of crime data
- Streamline the rules on the disposition of specialized and multi-party cases
- Automate consumer complaints handling

Outcome 2: Access to quality free or affordable legal services improved

- Promote free legal services access
- Establish free legal aid public directory and referral system
- Strengthen victim legal protection and assistance
- Expand access to non-financial bail and periodic review of preventive imprisonment

Outcome 3: Quality of life of PDLs improved, and productive reintegration of PDL in the community ensured

- Undertake construction and repair of penal facilities
- Establish a unified penology and corrections system
- Operationalize preventive mechanism
- Expand the e-Dalaw system, livelihood and entrepreneurial opportunities for PDL, and multi-disciplinary rehabilitation mechanisms
- Identify classes of PDLs that may be qualified for early release and expand access to parole and probation for certain classes of offenses
- Operationalize the unified referral and monitoring system for former PDL

Practice Good Governance and Improve Bureaucratic Efficiency

Governance is important in the management of the development process involving both the public and the private sector. Good governance is fundamental to economic growth, political stability, and security. It also reduces corruption, fosters participation, demands accountability, ensures transparency, and promotes efficiency.

In this Chapter, the citizens, particularly civil society organizations (CSOs) and the private sector, play an important role in the development of the region. Their insights are considered in decision-making and the government will continue investing in capacity building for a more effective and efficient public service. The Chapter aims to deepen participatory governance, bolster public accountability and integrity, rationalize and strengthen government functions, systems and mechanisms, and support competent, motivated, agile and resilient public servants.

Strategies

Outcome 1: Participatory governance deepened

- Improve functionality, effectiveness, and responsiveness of local participatory governance bodies
- Maximize benefits of the CSO assemblies and networks

Outcome 2: Public accountability and integrity bolstered

- Enhance public feedback loops and intensify transparency in public spending
- Strengthen implementation and monitoring of anti-corruption laws and programs
- Improve regional governance assessments

Outcome 3: Government functions, systems and mechanisms rationalized and strengthened

- Support rightsizing and the whole-of-government approach in re-engineering systems and procedures
- Accelerate digital transformation in government
- Raise the productivity performance of agencies

Outcome 4: Competent, motivated, agile and resilient public servants supported

- Guarantee complete and capable human resources in government
- Promote conducive working environments

Cross-Cutting Strategy

- Strengthen the RDC's role in promoting stronger collaboration between regional line agencies and local government units

Accelerate Climate Action and Strengthen Disaster Resilience

The entire country, including the National Capital Region, is experiencing extreme weather events, extreme heat temperature, drought, destructive typhoons, sea level rise, flooding, and other natural calamities due to climate change.

The region and the local Disaster Risk Reduction and Management Offices will ensure that different plans and programs, as well as laws and policies, will be implemented to guarantee that the people and communities are safe and resilient against disaster through their efforts to achieve zero-casualty in communities and prevent serious damage during natural calamities. The enactment of RA No. 10121 or the Philippine Disaster Risk Reduction and Management Act of 2010 and RA No. 9729 or the Climate Change Act must be taken into account to accelerate climate action and strengthen disaster resilience both at national and local levels. Likewise, protection and preservation of ecosystems and natural resources shall also be a regional priority.

Strategies

Outcome 1: Climate and disaster risk resilience of communities and institutions in disaster preparedness increased

- Strengthen the capacity of LGUs and communities in disaster prevention and preparedness
- Boost multi-stakeholder partnership in building and translating knowledge to climate change adaptation and disaster risk reduction
- Ensure the formulation of business or public continuity and rehabilitation and recovery plan

Outcome 2: Low carbon economy transition enabled

- Support the implementation of the Nationally Determined Contribution (NDC) policies and measures (PAMs)
- Bolster private sector investments in green development
- Ensure just transition of workers affected by the structural changes toward a greener, more sustainable and low carbon economy

Outcome 3: Ecosystem resilience enhanced

- Intensify ecosystem protection, rehabilitation, and management
- Protect and safeguard the remaining key biodiversity areas and ecosystems of the region
- Promote and expand natural resource-based industries and enterprises

Outcome 4: Governance and intersectionality of climate change and natural hazard resilience improved

- Improve local risk data and information and management systems

Plan Implementation, Monitoring, and Evaluation

In accordance with the Philippine Development Plan 2023-2028, the Regional Development Plan - NCR 2023-2028 is geared towards the attainment of the country's long-term vision, Ambisyon Natin 2040, and the President's 8-Point Socioeconomic Agenda, as well as anchored on the region's vision as realized in the Metro Manila Greenprint 2030.

The Plan's implementation, monitoring, and evaluation is crucial as it requires close coordination between and among regional line agencies, local government units, the private sector, and civil society organizations.

Implementation

The Regional Development Plan - NCR will be implemented through its accompanying document, the Regional Development Investment Program - NCR 2023-2028. The latter document translates the Plan's goals, objectives, and strategies into programs and projects to be implemented within the given timeframe.

The Office of the Assistant General Manager for Planning of the Metropolitan Manila Development Authority, as the overall Regional Development Council-National Capital Region (RDC-NCR) Secretariat, is responsible for leading the coordination mechanisms with the different implementing agencies of the RDC-NCR through the Planning Committees on Social Development, Economic and Environment Development, Finance and Development Administration, and Infrastructure Development.

Monitoring and Evaluation

Through the interventions of the aforementioned agencies, the Plan's progress will be monitored and evaluated through existing mechanisms. These include the development of the Results Matrices (RM), which harmonizes the indicators of each RDP chapter, the formulation of the Regional Development Report (RDR) which serves as the annual report of the Plan and contains the updates for every chapter, and the formulation of the Regional Economic Situationer (RES), which provides an outlook and assessment of the economic development of the region.

Results Matrix. The RM integrates the indicators that measure the success of the established strategies in the Plan. It contains the baseline information, accomplishments vis-a-vis the annual and end-of-plan targets of the indicators, means of verification, and list of responsible and reporting agencies.

This tool shall allow the monitoring of the chapter's progress through the identified indicators and shall support the planning, programming, and budgeting of concerned agencies in the implementation of their programs and projects.

Regional Development Report. The RDR serves as the assessment report of the socio-economic performance of the region relative to the RDP-NCR. Similar to the Plan, the RDC shall spearhead the formulation of the RDR which shall comprise the same chapters and outline. The assessment shall be based on the RM which encapsulates the strategic framework of the Plan including the goals, objectives, and chapter outcomes.

This shall be formulated through a series of consultation workshops with the members of the RDP Planning Committees to validate the sectoral data and performance for the indicated year, as well as factors that contribute to and/or hamper the implementation of the identified strategies in the chapters.

Regional Economic Situationer. The RDP-NCR Secretariat shall formulate the RES that will provide the annual outlook and improvements of the region's economic development. This shall report the performance of the region's regular socioeconomic headline indicators in relation to the previous years, as well as provide the prospects in the next years.

The Secretariat shall regularly coordinate and monitor with concerned stakeholders especially on the required data and information for the Gross Regional Domestic Product (GRDP) and Gross Regional Domestic Expenditure (GRDE), inflation rate, and poverty incidences, among others.

Plan Communication and Advocacy

The MMDA, as the Regional Development Council-National Capital Region Secretariat, will conduct advocacy activities to increase awareness on and appreciation of the RDP-NCR. These activities may include preparing advocacy and promotional materials in digital and printed formats, posting on the social media account of the RDC-NCR, and conducting fora or sessions with RDC-NCR stakeholders.

Beyond merely increasing awareness and understanding, the MMDA, through the RDC-NCR, shall aim for wider plan implementation and utilization by encouraging the participation of key actors and stakeholders.

Annexes

Annex 1: NEDA Memorandum Circular (16 September 2022)

Guidelines for the Formulation of the Philippine Development Plan (PDP) and Regional Development Plans (RDPs) 2023-2028

Annex 2: RDC-NCR Resolution No. 01, Series of 2023

Approving and Adopting the Planning Guidelines for the Formulation of the Regional Development Plan for the National Capital Region 2023-2028

Annex 3: RDC-NCR Resolution No. 09, Series of 2023

Approving and Adopting the Regional Development Plan for the National Capital Region (RDP-NCR) 2023-2028

REPUBLIC OF THE PHILIPPINES

NATIONAL ECONOMIC AND DEVELOPMENT AUTHORITY

OFFICE OF THE SECRETARY

MEMORANDUM

**TO : MEMBERS OF THE CABINET
CHAIRS OF THE REGIONAL DEVELOPMENT COUNCILS
CHAIR OF THE METRO MANILA COUNCIL
CHAIR OF THE BANGSAMORO ECONOMIC AND
DEVELOPMENT COUNCIL**

FROM : ARSENIO M. BALISACAN, PhD
Secretary, National Economic and Development Authority

**SUBJECT : Guidelines for the Formulation of the Philippine
Development Plan (PDP) and Regional Development Plans
(RDPs) 2023-2028**

DATE : 16 September 2022

1. NEDA, being the government's premier socioeconomic planning body, steers and coordinates the consultative process and preparation of the country's medium-term PDP at the beginning of each administration.
2. During his First State of the Nation Address last 25 July 2022, the President directed NEDA to officially commence activities leading to the formulation of the PDP 2023-2028 and to submit the Plan before the end of 2022. A 'whole-of-government' and 'whole-of-society' process shall be adopted in the Plan preparation. It shall be jointly formulated by the executive and legislative branches of the government, with the participation of other sectors, including marginalized and private sectors.

3. In this regard, the organizational structure for PDP 2023-2028 formulation shall require the creation of the following: (a) Plan Steering Committee (PSC) as the top-most decision-making body in the PDP formulation process and (b) Planning Committees (PCs) for each chapter to provide inputs and serve as venue for inter-agency discussions. The proposed members of the PSC as well as the proposed members of the PC and lead agency for each chapter are listed in Annex K and L of the draft Guidelines.
4. For the RDP preparation, the Regional Development Councils (RDCs) in all regions, the Metro Manila Council, and the Bangsamoro Economic and Development Council shall spearhead the formulation and approval of their respective RDPs.
5. To guide the PSC and PCs, we are respectfully providing you with the attached guidelines for the formulation of the PDP and RDPs 2023-2028. These guidelines contain the overall strategy framework, outline of the PDP, planning process, organizational set-up, and timeline of activities to be to be adhered to in the preparation of the PDP/RDPs and the accompanying Result Matrices.
6. All members of the PSC, PCs, and RDCs are hereby requested to prioritize this undertaking from today until the approval/finalization of the Plan.
7. The NEDA Technical Secretariat will get in touch with the proposed lead agencies to convene the PCs at the soonest possible time.

Thank you.

ARSENIO M. BALISACAN, PhD

“Where Metro Manila goes, so the country goes”

RDC-NCR RESOLUTION NO. 01

Series of 2023

**APPROVING AND ADOPTING THE PLANNING GUIDELINES FOR THE FORMULATION
OF THE REGIONAL DEVELOPMENT PLAN FOR THE NATIONAL CAPITAL REGION
2023-2028**

WHEREAS, President Rodrigo Roa Duterte signed Executive Order (EO) No. 5, Series of 2016, "Approving and Adopting the Twenty-Five-Year Long-Term Vision entitled *AmBisyon Natin* 2040 as Guide for Development Planning;"

WHEREAS, under the said EO, four medium-term development plans are to be crafted and implemented until 2040 to ensure sustainability and consistency of strategies, policies, programs, and projects across political administrations;

WHEREAS, EO No. 113, Series of 2002 constituted the Metro Manila Council to serve and function as the Regional Development Council for the National Capital Region;

WHEREAS, under the said EO, the Council shall coordinate the preparation, implementation, monitoring and evaluation of medium-term and long-term development plans and investment programs;

WHEREAS, the RDC-NCR approved and adopted the first regional medium-term development plan on 21 June 2018, and the midterm update on December 2021 via ad referendum;

WHEREAS, the National Economic and Development Authority (NEDA), as the country's socioeconomic planning agency, steers and coordinates the consultative process and preparation of medium-term national and regional development plans at the beginning of each administration;

WHEREAS, NEDA has issued a Memorandum dated 16 September 2022 to the Regional Development Councils to formulate respective regional development plans (RDP) for 2023-2028, providing guidelines and structure for the undertaking;

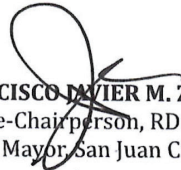

WHEREAS, RDCs are encouraged to formulate supplemental guidelines consistent with the issued guidelines which may include the internal organizational set-up, consultative activities, and timetable;

WHEREAS, the RDC-NCR Secretariat prepared the supplemental guidelines for the formulation of the Regional Development Plan for the National Capital Region (RDP-NCR) 2023-2028 (Attached as [Annex A](#));

NOW, THEREFORE, be it resolved, as it is hereby resolved, that the Regional Development Council for the National Capital Region approves and adopts the prepared supplemental planning guidelines for the formulation of RDP-NCR 2023-2028;

RESOLVED FINALLY, copies of this resolution are furnished to the members of the RDC-NCR and its Advisory Committee and Sectoral and Special Committees, NEDA Central Office, and concerned development stakeholders for information, adoption, guidance, and appropriate action.

RDC-NCR RESOLUTION NO. 09

Series of 2023

**APPROVING AND ADOPTING THE REGIONAL DEVELOPMENT PLAN FOR THE NATIONAL
CAPITAL REGION (RDP-NCR) 2023-2028**

WHEREAS, Executive Order (EO) No. 113, Series of 2002 constituted the Metro Manila Council to serve and function as the Regional Development Council (RDC) for the National Capital Region (NCR);

WHEREAS, the Council shall coordinate the preparation, implementation, monitoring and evaluation of medium-term and long-term development plans and investment programs as mandated by the said EO;

WHEREAS, EO No. 5, Series of 2016 provided the long-term vision of the country entitled *Ambisyon Natin 2040* as guide for development planning;

WHEREAS, under the EO, medium-term development plans shall be anchored on *Ambisyon Natin 2040* to ensure sustainability and consistency of strategies, policies, programs and projects across political administrations;

WHEREAS, the National Economic and Development Authority, as the country's socioeconomic planning agency, issued a Memorandum dated 16 September 2022 for RDCs to formulate regional development plans (RDPs) for 2023-2028;

WHEREAS, the RDC-NCR approved and adopted the planning guidelines for the formulation of the RDP-NCR 2023-2028 which included the planning process, content, and timetable through the issuance of Resolution No. 01, Series of 2023;

WHEREAS, the said guidelines also established the RDC Sectoral Committees as Planning Committees for the RDP-NCR 2023-2028 which involved the participation of the regional line agencies, local government units, private sector, and civil society organizations;

WHEREAS, the Planning Committees conducted consultation and validation workshops on November 2022 and April-June 2023 to seek inputs and comments as well as regular coordination with the stakeholders to ensure participatory planning;

WHEREAS, RDC Sectoral Committee Meetings were conducted last 28-29 September 2023 to discuss and endorse the RDP-NCR 2023-2028 chapters to the RDC-NCR;

NOW, THEREFORE, BE IT RESOLVED, AS IT IS HEREBY RESOLVED by the Regional Development Council for the National Capital Region in session duly assembled, approves and adopts the Regional Development Plan 2023-2028.

RESOLVED FINALLY, copies of this resolution are furnished to the members of the RDC-NCR and its Advisory Committee and Sectoral and Special Committees, NEDA Central Office, and concerned development stakeholders for information, adoption, guidance, and appropriate action.

APPROVED this 6th day of October 2023 in Pasig City, Metro Manila.
