REGIONAL DEVELOPMENT COUNCIL

NATIONAL CAPITAL REGION

"Where Metro Manila goes, so the country goes"

01 December 2021

FOR : METRO MANILA MAYORS / RDC-NCR MEMBERS

SUBJECT : REQUEST FOR APPROVAL AND ADOPTION VIA AD REFERENDUM OF THE MIDTERM UPDATED REGIONAL DEVELOPMENT PLAN FOR THE NATIONAL CAPITAL REGION (RDP-NCR) AND THE FORMULATION OF THE REGIONAL DEVELOPMENT INVESTMENT PROGRAM FOR THE NATIONAL CAPITAL REGION (RDIP-NCR)

This has reference to Memorandum Circular (MC) No. 01, series of 2019 "*Directing the Updating of the Philippine Development Plan, Public Investment Program, Regional Development Plans, and Regional Development Investment Programs for 2017-2022*" (*Annex 1*) which initiated the midterm updating of the Philippine Development Plan (PDP), Public Investment Program (PIP), Regional Development Plans (RDPs), and Regional Development Investment Programs (RDIPs) for 2017-2022.

The RDP-NCR 2017-2022 is a medium-term plan that guides the development direction of the region designed to transform Metro Manila into a highly competitive metropolis consistent with the overall strategic framework of the Philippine Development Plan 2017-2022.

The RDIP-NCR is the accompanying document of the RDP-NCR that translates the strategies and outcomes of the RDP-NCR into viable programs and projects to be implemented within the NCR that will contribute to the societal goals and outcomes of the RDP-NCR within the medium term. The RDIP-NCR will be the primary reference material in the updating of the programming document at the national level (i.e., PIP) as well as in the review of budget proposals of regional line agencies (RLAs) and state universities and colleges (SUCs) conducted by the RDC-NCR annually.

Moreover, the RDIP-NCR contains the consolidated list of sectoral programs and projects (P/Ps) with their corresponding investment requirements from 2020 to 2022 in accordance with the adjusted priority programs and fiscal directions. This validates the importance of the RDIP-NCR in strengthening further the vertical and horizontal linkages between the planning, programming, and budgeting framework.

In this regard, the RDC-NCR has conducted a series of consultation workshops for the midterm updating of the RDP-NCR and the formulation of the RDIP-NCR to discuss and solicit inputs from stakeholders namely, the RLAs, SUCs, local government units (LGUs), private sector representatives (PSRs), and non-governmental organizations (NGOs) via Zoom application from September to November 2020. Further to the said consultation workshops, the RDC-NCR Secretariat has prepared the draft updated RDP-NCR (*Annex 2*) and the RDIP-NCR (*Annex 3*), subject for the review and/or concurrence of the abovementioned stakeholders.

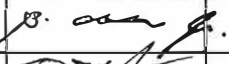

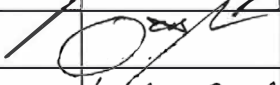

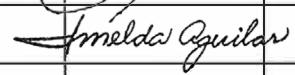

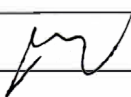

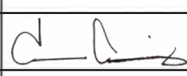

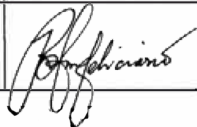

The RDC-NCR Secretariat requested the issuance of Certificates of Concurrence from stakeholders signifying their approval and adoption of the RDIP-NCR. With that, the RDC-NCR Secretariat requested the approval and adoption of the RDP-NCR and RDIP-NCR to the RDC-NCR via *Ad Referendum*.

Attached hereto are the RDC-NCR *ad referendum* sheet for your signature on the column corresponding to your preferred action/decision, as well as other supporting documents for your reference.

USEC. ROMANDO S. ARTES

General Manager and RDC-NCR Secretary

**REQUEST FOR THE APPROVAL AND ADOPTION OF THE REGIONAL DEVELOPMENT PLAN FOR
THE NATIONAL CAPITAL REGION (RDP-NCR) MIDTERM UPDATE AND THE REGIONAL
DEVELOPMENT INVESTMENT PROGRAM FOR THE NATIONAL CAPITAL REGION (RDIP-NCR)**

MESSAGE OF MMDA CHAIRMAN

As the Chairman of the Regional Development Council of the National Capital Region (RDC-NCR), I would like to express my deepest gratitude to the Regional Line Agencies (RLAs), State Universities and Colleges (SUCs), Government-Owned and Controlled Corporations (GOCCs), Private Sectors (PS), Non-Government Organizations (NGOs) representatives and to the 17 Local Government Units (LGUs) of the NCR on their unwavering support in crafting the Regional Development Investment Program of the National Capital Region (RDIP-NCR) for 2020-2022.

Last 24 January 2020, the RDC-NCR approved the guidelines for the formulation of the RDIP-NCR which is the accompanying document of the RDP-NCR for FY 2017-2022 that translates the strategies and outcomes of the same into viable programs and projects

(P/Ps) to be implemented within Metro Manila that will contribute to the societal goals and outcomes of the RDP-NCR within the medium term.

The formulation of the RDIP-NCR is a long and tedious process that entailed the collaboration and help of the stakeholders for the fulfillment and development of Metro Manila.

Moreover, the programs and projects are prioritized to achieve and to attain the goals of the RDP-NCR under the Economic, Development Administration, Environmental, Social, and Infrastructure Development sector of the NCR.

Rest assured that the programs and projects in the RDIP-NCR will be implemented and prioritized in terms of budgeting in support to the National Development Plan “AmBisyon 2040” to create opportunities for Filipinos to enjoy a *matatag, maginhawa, at panatag na buhay*.

And lastly, I want to commend the RDC-NCR Secretariat from the Office of the Assistant General Manager for Planning who actively took part in the preparation and finalization of the RDIP-NCR 2020-2022, despite the many challenges and circumstances encountered.

Maraming Salamat and Mabuhay Tayong Lahat!

BENJAMIN C. ABALOS, JR.

Chairman

Metropolitan Manila Development Authority

GLOSSARY OF TERMS

Build, Build, Build (BBB) Program	President Duterte administration's medium-term goal is to increase infrastructure spending from 5.4 percent of the country's Gross Domestic Product (GDP) in 2017, to 7.3 percent by the end of President Rodrigo Duterte's term in 2022.
Crime Incidence	The number of crimes reported as to index or non-index crimes within a given period.
Cultural Mapping	A valuable tool for identifying a community's strengths and its resources. This process can help as communities move into the planning and implementation phase by identifying early the resources, efficiencies and links between arts and cultural groups, as well as their common aspirations and values.
Disaster Risk Reduction (DRR)	The concept and practice of reducing disaster risks through systematic efforts to analyze and manage the causal factors of disasters, including through reduced exposures to hazards, lessened vulnerability of people and property, wise management of land and the environment, and improved preparedness for adverse events.
Educational Facilities	Refers to all physical properties of a school, consisting of the grounds, buildings, and the various facilities within the school and inside the school buildings as described by the Educational Facilities Manual of the DepEd.
ICT sector	Refers to those engaged in providing goods and services intended to fulfill or enable the function of information processing and communication by electronic means. The ICT sector includes telecommunications and broadcast information operators, ICT equipment manufacturers, multimedia content developers, and providers, ICT solution providers, internet service providers, ICT training institutions, software developers, and ICT-Enabled Services (ICT-ES) providers.
Index Crimes	Crimes sufficiently significant and which occur with sufficient regularity to be meaningful. Crimes which include the following: murder, physical injury, robbery, theft, and rape.

Information and Communications Technology (ICT)	Totality of electronic means to access, create, collect, store, process, receive, transmit, present, and disseminate information.
Informal Settler Families (ISFs)	Refers to the families living in housing units or facilities constructed on land that the occupants have no legal claim and constructed in danger areas, particularly those along waterways such as creek, rivers and esteros.
Low-cost Housing	Housing units that are affordable to low-income earners with loan amounts ranging from ₱450,000 to ₱3 million, which is subject to review and adjustment at least every two years (HUDCC, 2013; BSP 2011; RA 8763, 2000).
Maynilad Water Services Inc. (MWSI)	The water and wastewater services provider in the West Zone of the greater Metro Manila area under a Concession Agreement entered into between the company and MWSS.
Non-Index Crimes	All types of crimes not considered as index crimes.
Person Deprived of Liberty (PDL)	A detainee, inmate, or prisoner, or other person under confinement or custody in any other manner, according to Republic Act 10757, otherwise known as the “The Bureau of Corrections Act of 2013”.
Socialized Housing	Refers to housing programs and projects covering houses and lots or home lots only undertaken by the government or the private sector for the underprivileged and homeless citizens which shall include sites and services development, long-term financing, liberalize terms on interest payments, and such other benefits in agreement with the Urban Development and Housing Act RA No. 7279.
Technical and Vocational Education and Training	Education and training which provides knowledge and skills for employment. TVET uses formal, non- formal and informal learning. TVET is recognized to be a crucial vehicle for social equity, inclusion and sustainable development.
Water Quality	The characteristics of water which define its use in terms of physical, chemical, biological, bacteriological, or radiological characteristics by which the acceptability of water is evaluated.
Solid Waste Diversion Rate	Activities which reduce or eliminate the amount of solid waste from waste disposal facilities.

1

Introduction

INTRODUCTION

The Regional Development Council of the National Capital Region (RDC-NCR), by virtue of Executive Order No. 113 (series of 2002), is mandated to coordinate the preparation, implementation, monitoring and evaluation of medium- and long-term regional development plans and investment programs¹ and to review, prioritize, and endorse to the National Government the annual and multi-year sectoral investment programs of the National Capital Region (NCR) for funding and implementation².

The Metropolitan Manila Development Authority (MMDA), through the Office of the Assistant General Manager for Planning (OAGMP), has spearheaded the exercise of formulating the Regional Development Investment Program for the National Capital Region (RDIP-NCR).

The RDIP-NCR is the accompanying document of the Regional Development Plan 2017-2022 of the National Capital Region (RDP-NCR) which translates the strategies and outcomes of the same into viable programs and projects (P/Ps).

The RDIP-NCR shall contain the priority P/Ps to be implemented within NCR by regional line agencies (RLAs), state universities and colleges (SUCs), and government-owned and controlled corporations (GOCCs) that will contribute to the societal goals and outcomes of the RDP-NCR within the medium term. The Result Matrices (RM) of the RDP-NCR shall serve as a guide to ensure alignment of P/Ps relative to the sector outcomes in the RDP-NCR. It shall likewise be anchored on the President's 0-10 Point Socioeconomic Agenda, and the Metro Manila Greenprint 2030 which ensures effective horizontal and vertical linkages of the development planning cycle.

Moreover, the RDIP-NCR shall serve as the primary reference by the RDC-NCR in the annual review of the budget proposals of RLAs and SUCs, and in the monitoring and evaluation of annual progress and End-of-Plan targets. P/Ps in the budget proposals of RLAs and SUCs should be consistent with the RDP-NCR and included in the RDIP-NCR. Hence, the RDIP-NCR will serve as a mechanism to appropriately allocate funds in identified priority investment areas.

The formulation of the RDIP-NCR aims to consolidate, evaluate, and validate P/Ps of RLAs, SUCs, and GOCCs in Metro Manila that will translate the identified strategies and outcomes of the RDP-NCR 2017-2022; and to annually monitor and update the P/Ps included in the RDIP-NCR.

¹ Pursuant to Section 1.a., EO 113 series of 2002

² Pursuant to Section 1.c., EO 113 series of 2002

2

Methodology

METHODOLOGY

In view of the COVID-19 pandemic, the RRP-NCR was formulated to lay down strategies to adjust to the context of the new normal. It also included programs and projects of RLAs, SUCs, GOCCS, NGOs, the private sector, and the 17 NCR LGUs that correspond to response interventions against the COVID-19 pandemic and investments on rehabilitation and recovery to adapt to the new normal.

As such, P/Ps included in the RRP-NCR were also considered for inclusion in the RDIP-NCR. RLAs, SUCs, and GOCCs also submitted and/or re-submitted the list of ongoing and proposed P/Ps to be implemented within the medium term to reflect updated P/Ps.

Subsequently, the RDC-NCR has undertaken its initial evaluation on the submitted P/Ps based on the following criteria pursuant to RDC-NCR Resolution No. 1 series of 2020³:

1. **Typology** shall pertain to:
 - a. Capital investment P/Ps to deliver public goods and services that contribute specifically to the region's productive capacity;
 - b. Technical assistance P/Ps such as research and development (R&D), institutional development, human resource capacity building or system/process improvement P/Ps;
 - c. Relending P/Ps; and
 - d. Government facilities.
2. **Readiness** shall refer to whether the P/P is ongoing, proposed, or completed.
3. **Responsiveness** should pertain to the P/Ps responsive to the updated RMs of the RDP-NCR, the 0 to 10-point Socioeconomic Agenda, and the Metro Manila Greenprint 2030.

The result of the initial evaluation was presented during the consultation meetings for the Midterm Updating of the RDP-NCR and was officially transmitted to the concerned RLAs and SUCs for further validation. The RDC-NCR Secretariat thereafter consolidated and processed the list of P/Ps to form part of the RDIP-NCR document. Concurrence on the list of P/P and the document was secured from the RLAs, SUCs, and GOCCs.

The RDC-NCR Secretariat deemed it only fitting to cover the period 2020 to 2022 in the interest of the remaining planning period of the updated RDP-NCR. The alignment of P/Ps was based on the adjusted strategies, outcomes, and objectives of the updated RDP-NCR.

The RDIP-NCR was approved by the RDC-NCR by virtue of RDC-NCR via *Ad Referendum* dated 01 December 2021 and shall be reviewed and updated on an annual basis thereafter.

³ Subject to amendments

3

Highlights and Overview of the RDIP-NCR

HIGHLIGHTS AND OVERVIEW OF THE RDIP-NCR

A total of 35 national government agencies (NGAs)/regional line agencies (RLAs) and eight (8) state universities and colleges (SUCs) submitted their P/Ps for inclusion in the RDIP-NCR. The total investment requirement of the RDIP-NCR amounts to ₱1,139,576.41 Million for the period of 2020 to 2022.

By RDP-NCR Sector

A total of 1,508 P/Ps were identified and distributed according to the RDP-NCR chapters they relate to.

The RDIP-NCR comprises five (5) development sectors namely the Economic Development, Environmental Development, Development Administration, Social Development, and Infrastructure Development. Each sector has corresponding Chapters of the RDP-NCR.

Economic Development Sector

- Chapter 6 Enhancing Economic Opportunities in Industry and Services Through “Trabaho” at “Negosyo” including Digital Economy
- Chapter 11 Vigorously Advancing Science, Technology, and Innovation

Environmental Development Sector

- Chapter 14 Ensuring Ecological Integrity, Clean and Healthy Environment

Development Administration Sector

- Chapter 8 Reducing Vulnerability of Individuals and Families
- Chapter 12 Ensuring Security, Public Order, and Safety

Social Development Sector

- Chapter 5 Promoting Awareness and Valuing Cultural Diversity
- Chapter 7 Transforming Human Capital Development towards Greater Agility
- Chapter 9 Building Safe and Secure Communities
- Chapter 10 Prospecting for a Demographic Dividend

Infrastructure Development Sector

- Chapter 13 Accelerating Infrastructure Development

The Infrastructure Development Sector, which comprises Chapter 13 of the RDP-NCR, had the biggest share of the total investment requirement at 95.5 percent (Figure 1). This is followed by the Development Administration Sector and Social Development Sector with 2.7 and 1.4 percent shares, respectively. The Environmental Development and Economic Development

Sectors, on the other hand, had the least investment targets which made up 0.3 percent and 0.04 percent, respectively. Table 1 shows the total investment targets by sector.

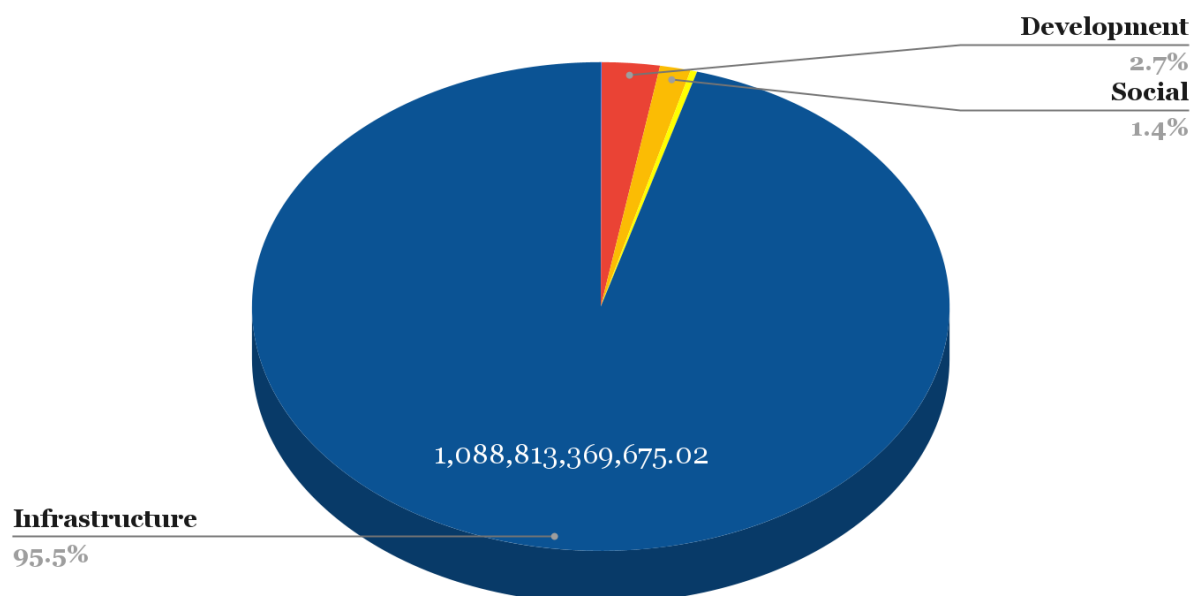

Figure 1. Percent Share of Investment Requirements by Development Sector to Total Investment Requirement

Table 1. Summary of Total Investment Requirements by Development Sector

Sector	Number of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	TOTAL
Infrastructure	1,350	249,441.89	527,392.33	311,979.15	1,088,813.37
Development	47	11,210.27	10,596.75	8,762.42	30,569.44
Administration	72	1,664.32	6,330.11	8,215.40	16,209.84
Social	22	365.48	472.69	2,676.37	3,514.54
Development	17	90.00	159.78	219.44	469.22
Economic					
Development					
TOTAL	1,508	262,771.97	544,951.66	331,852.78	1,139,576.40

By Implementing Agency

Among the 35 NGAs/RLAs and eight (8) SUCs, DOTr has the highest total investment target amounting to ₱579,407.49 Million (50.84%). MPC comes second with a total investment

requirement of ₱289,200.00 Million (25.38%). This is followed by the PPP Service with a total investment requirement amounting to ₱58,613.47 Million (5.14%); DPWH-NCR's total investment requirement totalling to ₱38,292.91 (3.36%); and DPWH-UPMO-FCMC with a 2.67 percent share for its total investment requirement amounting to ₱30,471.58 Million.

Listed in Table 2 are the highest investment targets among NGAs, RLAs, and SUCs for the period 2020 to 2022.

Table 2. Top Five Implementing Agencies with Highest Investment Requirements

Agency/SUC	No. of P/Ps	Funding Requirement (in ₱ Million)			
		2020	2021	2022	Total
DOTr	22	85,455.76	279,380.09	214,571.63	579,407.49
MPC	3	99,200.00	190,000.00	0.00	289,200.00
PPP Service	4	5,335.03	4,088.63	49,189.81	58,613.47
DPWH-NCR	953	15,193.92	21,128.09	1,970.98	38,292.91
UPMO-FCMC	15	9,999.80	10,932.37	9,539.41	30,471.58

Economic Development Sector

ECONOMIC DEVELOPMENT SECTOR

Introduction

The economic development sector of the RDIP-NCR translates the adjusted strategies of the RDP-NCR under Chapter 6: “Expanding economic opportunities in industry and services through “*Trabaho*” and “*Negosyo*” including Digital Economy” and Chapter 11: “Vigorously Advancing Science, Technology and Innovation (STI)” into investment P/Ps. These correspond to “*Pagbabago*” (Inequality-reducing Transformation) and “*Patuloy na Pag-unlad*” (Increasing growth potential) pillars of the RDP-NCR, respectively.

Linkage of the Economic Development Sector under the RDIP-NCR with the RDP-NCR

Chapter 6 targets to expand economic opportunities in industry and services including the digital economy; to support micro, small and medium enterprises (MSMEs); and to implement tourism development and promotion in order to realize the goal of transforming the society towards equity and resiliency. Furthermore, the Chapter aims to improve the labor and employment sector, assist overseas Filipinos, and facilitate port operations in order to increase employment and livelihood opportunities in the region.

Chapter 11, on the other hand, intends to increase Science, Technology and Innovation (STI) utilization in industry and services sectors and investments in STI-based start-ups enterprises and spin-offs; to enhance creative capacity for knowledge and technology generation, acquisition, and adoptions; and to strengthen open collaboration among actors in the STI ecosystem. This is supportive of the Harmonized R&D Agenda, as well as achieving the outcome of promoting and accelerating technology adoption and stimulation of innovation in support of the regional development thrusts.

The subsequent discussion will focus on the P/Ps that will contribute to the attainment of the aforementioned objectives and outcomes.

Summary of the Investment Requirements under Economic Development Sector

Table 3 depicts the total investment requirement for the Sector which amounts to ₱469.22 Million to implement 19 P/Ps responsive to Chapter 6 and 11.

P/Ps responsive to Chapter 11 have 94.9 percent share to be solely implemented by the DOST-

NCR while the remaining 5.1 percent respond to the strategies under Chapter 6 for P/Ps that will be implemented by the DTI-NCR and DOT-NCR (*Figure 2*).

Table 3. Summary of Investment Requirements for the Economic Development Sector, by Chapter

Chapter	Number of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	TOTAL
Chapter 6	4	2.18	10.03	11.91	24.11
Chapter 11	13	87.82	149.75	207.54	445.11
TOTAL	17	90.00	159.78	219.44	469.22

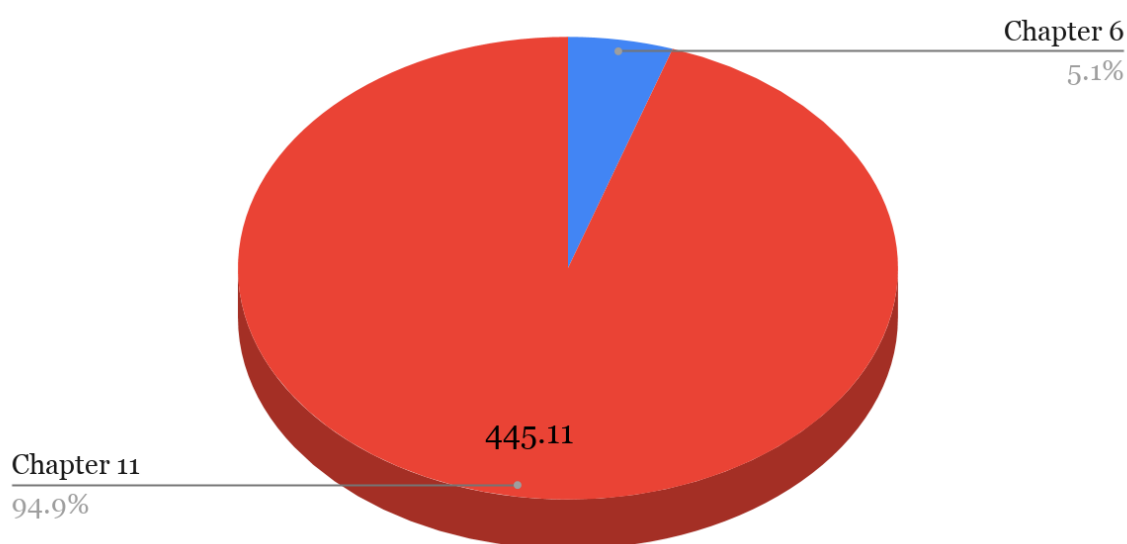

Figure 2. Percent Share of Investment Requirements per Chapter under the Economic Development Sector (in ₱ Million)

Table 4 also provides the investment targets by implementing agency from 2020 to 2022.

Table 4. Summary of Investment Requirements for the Economic Development Sector, By Implementing Agency

Agency	Number of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	Total
DOST-NCR	13	87.82	149.75	207.54	445.11
DTI-NCR	1	0.24	7.32	8.78	16.34
DOT-NCR	3	1.94	2.71	3.12	7.77
TOTAL	17	178.18	20.03	21.91	469.22

DOST's Small Enterprise Technology Upgrading Program (₱271.87 Million) had the highest required investment for the Sector (*Table 5*). This endeavor supports one of the DOST's desired outcomes to improve the productivity and efficiency of communities and the production sector, particularly MSMEs.

It is composed of the SETUP Innovation Fund (Innovation System Support Fund) which aims to provide technological innovations to MSMEs through the acquisition of appropriate technology, technical advisory and consultancy services, human resource training, functional packages and label design, and product standards and testing. This will enhance the productivity and competitiveness of MSMEs towards economic progress and growth in the NCR.

Other components of the program include Manufacturing Productivity Extension (MPEX) Program for Selected MSMEs, Consultancy for Agricultural and Manufacturing Productivity Improvement (CAMPI) Program, Label Design and Package Development, and iFWD PH: Innovation for Filipinos Working Distant from the Philippines intended to benefit MSMEs in the region (*Table 7*).

This is followed by the proposed establishment of the Science and Technology Resource and Incubation Center (STRIC) of the DOST-NCR (₱53 Million) and Community Empowerment through Science and Technology (CEST) (₱50 Million) (*Table 5*).

Table 5. Top Three P/Ps with Highest Investment Requirement for the Economic Development Sector

Program/Project	Investment Requirement (in ₱ Million)			
	2020	2021	2022	Total
Small Enterprise Technology Upgrading Program	75.58	95.75	100.54	271.87
Establishment of DOST-NCR Science and Technology Resource and Incubation Center (STRIC)	-	-	53.00	53.00
Community Empowerment through Science and Technology (CEST)	-	25.00	25.00	50.00

DOST-NCR's investment requirements had the largest share (94.9%) out of the total investment requirement for the Sector. This is followed by the DTI-NCR with a 3.5 percent share, and the DOT-NCR with a 1.7 percent share (*Figure 3*).

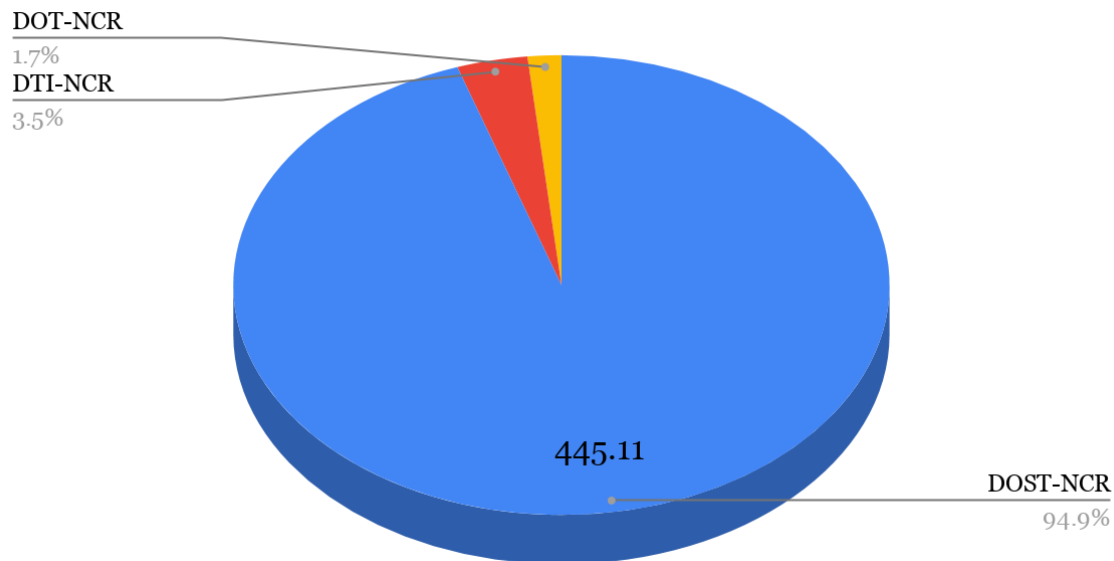

Figure 3. Percent Share of Investment Requirements per Implementing Agency under the Economic Development Sector (in ₱ Million)

Aside from the SETUP Program, the proposed STRIC, and CEST, DOST will also implement their regular support to S&T services in the region (₱24.19 Million). The investment requirement of DTI-NCR, meanwhile, comprises the Livelihood Seeding Program - Negosyo Serbisyo sa Barangay (LSP-NSB) amounting to ₱7.77 Million.

Lastly, DOT-NCR will provide technical assistance and capacity building activities for tourism enterprises and workers relative to contextualizing the new normal in the tourism industry, as well as for the inspection and dissemination of accreditation standards and procedures for the operation of tourism enterprise under community quarantine and the new normal.

Tables 6 and 7 provide further details of the programs and projects under the Sector.

Investment Program under the Economic Development Sector

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
CHAPTER 6 SUB-TOTAL				2020	2021	2022	Total						
				2,175,000.00	10,034,000.00	11,905,000.00	24,114,000.00						
DTI-001	Livelihood Seeding Program-	Conduct of training	NCR	166,000.00	3,320,000.00	3,984,000.00	7,470,000.00	GAA	DTI-NCRO and LGUs	2020-2022	2020: 5 trainings, 70 livelihood kits	Technical Assistance	Ongoing
	Negosyo Serbisyo sa Barangay (LSP-NSB)	Distribution of Livelihood Kits	NCR	70,000.00	4,000,000.00	4,800,000.00	8,870,000.00				2021: 100 trainings, 500 livelihood kits 2022: 120 trainings, 600 livelihood kits		
DOT-001	Tourism Policy Formulation and Planning Program	Technical assistance/ planning session to LGUs and private sector to define the new normal for tourism industry in the context of health and safety and digital transformation	NCR	652,000.00	720,000.00	828,000.00	2,200,000.00	GAA	DOT-NCR, LGUs	2021	In the first semester of 2020, DOT NCR has provided 27 unique technical assistance to both LGU and private stakeholders. In 2021 and 2022, the technical assistance will align to carrying capacity, product enhancement and planning and development under the new normal gudileines for attractions and destinaltions.	Technical Assistance	Ongoing
		-Conduct of product enhancement and development in existing and new destinations based on the new normal environment -Re-assessment of tourism products and preparation of action plan for domestic tourism -Tourism Statistics reporting and analytics under the new normal											
DOT-002	Standard Development Accreditation and Enforcement Program	-Roll-out/ dissemination of Accreditation standards and procedures for the operation of tourism enterprise under a Community Quarantine and New Normal	NCR	707,000.00	978,000.00	1,125,000.00	2,810,000.00	GAA	DOT-NCR	2020-2022	The 2020 physical target of 1,120 accredited tourism establishment has been achieved and surpassed last 30 June 2020 with 1,534 accredited tourism-related enterprises and with 624 Certificates of Authority to Operate issues during the enforcement of the Community quarantine.	Technical Assistance	Ongoing
		-Inspection of tourism enterprises based on health and safety guidelines and protocols									DOT NCR is targeting 3,000 accredited tourism enterprises in 2022		

No.	Priority Program	Project/Activity	Location	2020	Funding Requirements (in ₱)		Total	Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
DOT-003	Tourism Industry Training Program	Conduct of capacity-building for tourism workers, tourism enterprises/MSMEs, and local stakeholders	NCR	580,000.00	1,016,000.00	1,168,000.00	2,764,000.00	GAA	DOT-NCR	2020-2022	DOT NCR was able to conduct 4 trainings under the Tourism Industry Training Program for the first few months of 2020 prior to lockdown with 118 participants who completed the trainings satisfactorily. The target for FY 2022 is to conduct high-impact webinars that will revitalize the tourism industry in the region using digital platforms rather than face-to-face traditional training methods.	Technical Assistance	Ongoing

Table 7. Detailed Investment Program on Chapter 11: “Vigorously Advancing Science Technology and Innovation”

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
CHAPTER 11 SUB-TOTAL				87,820,700.00	149,750,000.00	207,537,500.00	445,108,200.00						
DOST-001	Small Enterprise Technology Upgrading Program	Program Mobilization Budget (PMB) for the Implementation of the Small Enterprise Technology Upgrading Program	Regionwide	75,584,095.80	95,750,000.00	100,537,500.00	271,871,595.80	GAA	DOST	2020-2022	SETUP PMB aims to support the management, monitoring and evaluation component of the SETUP Fund implementation	Technical Assistance	Continuous/Ongoing
		SETUP Innovation Fund (Innovation System Support Fund)						GAA		2020-2022	The SETUP iFund aims to enhance the productivity and competitiveness of MSMEs through technological innovations and upgrading of products and services towards economic progress and growth in the NCR. Technological innovations include provision of S&T interventions to MSMEs such as acquisition of appropriate technology; technical advisory and consultancy services on food safety, cleaner production, energy audit, product and process improvements; human resource training; functional packages and label design; product standards and testing.		
		Implementation of MPEX (Manufacturing Productivity Extension) Program for Selected MSMEs in the NCR						GAA		2020-2022	The MPEX program deploys productivity consultants to help the MSMEs engaged in manufacturing productivity and competitiveness. S&T interventions are focused on work process improvement, product design and packaging, plant layout, production planning and control, materials management system, quality control, safety and housekeeping practices, and financial systems and control		
		Implementation of CAMPI (Consultancy for Agricultural and Manufacturing Productivity Improvement) Program for Selected MSMEs in the NCR						GAA		2020-2022	The CAMPI program is a level-up strategy for SETUP beneficiaries to further improve their competitiveness in the establishment of documentation requirements for license to operate, GMP, SSOP, HACCP, and ISO certification. At the end of this program, MSMEs beneficiaries will be capacitated to acquire certification and accreditation to be more competitive to penetrate international markets.		
		Provision of Label Design and Package Development for MSMEs						GAA		2020-2022	The project intends to facilitate the improvement of label and packaging designs of MSMEs' products. The provision of an improved package and label design will enable the beneficiary to comply with regulatory requirements on labeling and make use of a more aesthetically appealing label as well as appropriate packaging. This, in turn, can lead to an increase in gross sales due to easier marketing of the product, enhanced product quality and longer product shelf-life.		

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
		iFWD PH: Innovation for Pilipinos Working Distant from the Philippines						GAA		2020-2022	The program aims to provide support and opportunities for OFWs and their families to establish their own technology-based businesses and encourage them to settle in their home country for good. It is composed of two phases that will equip returning OFWs with their needed skills and expertise to put up their own startup technology-based companies. The Program provides technical and financial assistance in collaboration with the Office of the Presidential Advisor on Overseas Filipino Workers (OPA-OFW), Overseas Workers Welfare Association (OWWA), Entrepinoy Volunteers Foundation, Inc. (EVFI), and DOST Research and Development Institute (RDIs).		
DOST-002	Community Empowerment thru Science and Technology (CEST)		Regionwide		25,000,000.00	25,000,000.00	50,000,000.00	GAA	DOST	2020-2022	CEST Program aims to empower and uplift the living condition of the indigent and marginalized communities nationwide through the conduct of technical trainings and application of S&T based technologies and innovation alligned with the administration's 10 point agenda for sustainable and inclusive growth.	Technical Assistance	Continous/Ongoing
DOST-003	Support to Gender and Development		Regionwide		500,000.00	800,000.00	1,300,000.00	GAA	DOST	2021-2022	Mainstreaming of Gender and Development in communities that are beneficiaries of S&T Interventions/Assistance	Technical Assistance	Proposed
DOST-004	Support to Community Based Projects		Regionwide	433,871.00	1,000,000.00	2,607,000.00	4,040,871.00	GAA	DOST	2020-2022	Provision of S&T Intervention to non-CEST communities and/or organized groups in the community such as senior citizen groups and PWDs	Technical Assistance	Continous/Ongoing
DOST-05	Support to Disaster Risk Production and Management		Regionwide	599,174.75	1,500,000.00	1,266,000.00	3,365,174.75	GAA	DOST	2020-2022	Utilization of STI in support to the improvement of disaster mitigation strategies and activities in the region and to develop disaster resilient communication and MSMEs	Technical Assistance	Continous/Proposed
DOST-06	Establishment and/or Upgrading of S&T Facilities		Regionwide			650,000.00	650,000.00	GAA	DOST	2022	Provision of funding support in establishing and/or upgrading of S&T Facility that will facilitate product prototyping and development, process improvement, and generation of R&D outputs in the region	Technical Assistance	Continous/Proposed
DOST-07	Support to Human Resource Development S&T Education		Regionwide	-	2,500,000.00	1,495,000.00	3,995,000.00	GAA	DOST	2020-2022	Strengthening of S&T-based Human Resource and continous improvement of S&T Education in the region through the conduct of capability upgrading trainings and seminars and roll-out of educational technologies and other S&T educational tools	Technical Assistance	Continous/Proposed

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
DOST-08	Support to Micro, Small and Medium Enterprises (MSMEs) and Industries		Regionwide	-	3,630,000.00	1,525,000.00	5,155,000.00	GAA	DOST	2020-2022	Provision of S&T Programs and Services for the improvement of MSMEs productivity and market competitiveness. This include Technology Trainings and Seminars, Technical Consultancy, Energy Audit, Cleaner Production, Packaging and Label Assistance, Food Safety Assessment, Product Development, Process Improvement, Standardization and Documentation	Technical Assistance	Continuous/ Proposed
DOST-009	Support to Research and Development		Regionwide	3,175,429.00	3,000,000.00	2,100,000.00	8,275,429.00	GAA	DOST	2020-2022	Provision of technical knowhow and funding support to R&D projects of both the academe and industry sector to generates commercialization-ready R&D outputs aligned with the regional and national R&D Agenda	Technical Assistance	Continuous/ Proposed
DOST-010	Support to S&T Promotion		Regionwide	3,528,909.97	2,370,000.00	5,757,000.00	11,655,909.97	GAA	DOST	2020-2022	Promotion of STI to encourage adoption and utilization of locally developed technologies and S&T services and products for the improvement of quality of life in the region	Technical Assistance	Continuous/ Proposed
DOST-011	Support to S&T Services		Regionwide	4,499,219.48	9,500,000.00	10,200,000.00	24,199,219.48	GAA	DOST	2020-2022	Improvement and enhancement of provision of DOST S&T Programs and Services through the establishment and operationalization of Cluster/satellite Offices namely PAMAMAZON, MUNTIPARLAS, CAMANAVA and PAMAMARISAN and through process improvement and capability building of personnel	Technical Assistance	Continuous/ Proposed
DOST-012	Support to Technology Transfer and Commercialization		Regionwide	-	5,000,000.00	2,600,000.00	7,600,000.00	GAA	DOST	2020-2022	Facilitation and promotion of the adoption, utilization and commercialization of DOST-developed/funded technologies and research outputs in addressing the needs of communities and industries.	Technical Assistance	Continuous/ Proposed
DOST-013	Establishment of DOST-NCR Science and Technology Resource and Incubation Center (STRIC)		DOST Cmpd. Taguig City	-	-	53,000,000.00	53,000,000.00	GAA	DOST	2021-2023	STRIC will be an incubation center providing technical administrative, marketing and legal support. After ideation and incubation, the STRIC will also serve as a platform to bridge clients to the DOST Bicutan megamakers composing of the different R&D Institutions to proceed into prototyping of tangible innovative R&D outputs.	Government Facility	Proposed

Environmental
Development
Sector

ENVIRONMENTAL DEVELOPMENT SECTOR

Introduction

The environmental development sector translates into P/Ps the updated strategies and targets under Chapter 14 of the RDP-NCR to ensure ecological integrity and improve the socioeconomic condition of resource-based communities.

Linkage of the Environment Development Sector under the RDIP-NCR with the RDP-NCR

The strategies under the RDP-NCR are to improve environmental quality, sustain biodiversity and functioning of ecosystem services, and increase adaptive capacities and resilience of ecosystems.

By 2022, targets include an increase in the percentage of air quality monitoring stations that are within the ambient air quality guideline value, and an improvement on the water quality of priority river systems in the region namely Pasig River, Marikina River, San Juan River, and Manila Bay.

Furthermore, the solid waste diversion rate will increase from 54 percent in 2016 to 73 percent. Biodiversity in the remaining conservation areas, and the estimated green spaces in the region will likewise increase.

Summary of the Investment Requirements under Environment Development Sector

The total investment requirement to implement the P/Ps that will contribute to the attainment of the chapter targets and outcomes amounts to ₱3,514.54 Million.

The P/Ps identified will be implemented from 2020 to 2022 by the DENR, EMB, and the PRCMO of the DENR, and the MMDA-SWMO.

The investment requirement of seven (7) P/Ps to be implemented by the MMDA-SWMO has an 81.9 percent share of the total investment requirements for the environmental development sector. This is followed by the DENR-NCR with 7.0 percent share, the DENR-PRCMA with 6.6 percent share and the EMB-NCR with 4.6 percent share (*Figure 4*). Table 8 summarizes the investment requirements per implementing agency.

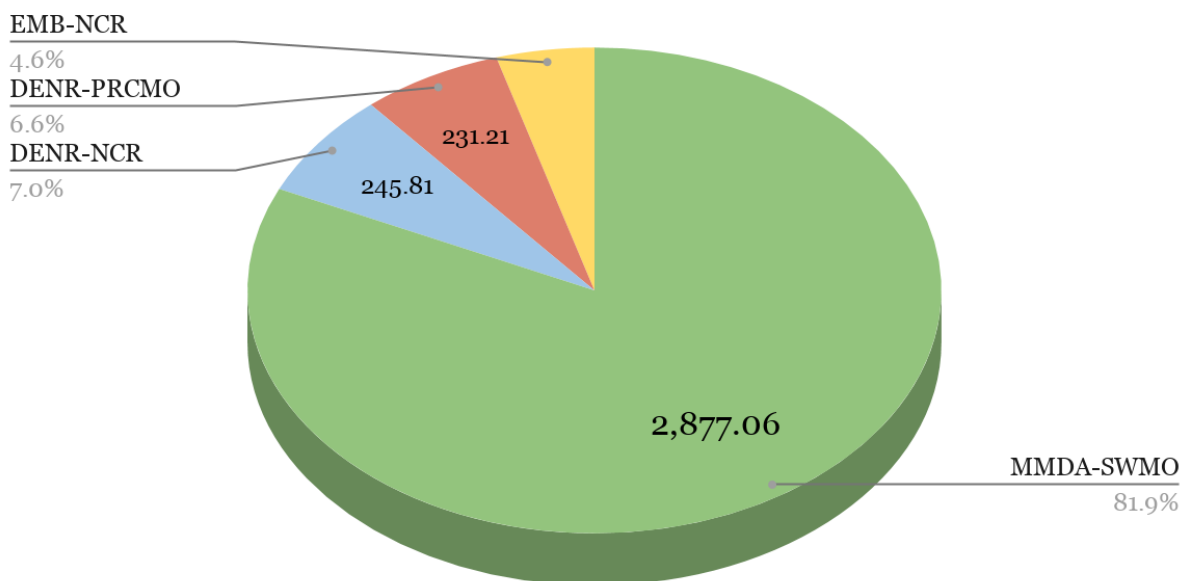

Figure 4. Percent Share of Investment Requirements per Implementing Agency under the Environmental Development Sector

Table 8. Investment Requirements for the Environmental Development Sector, by Implementing Agency

Agency	Number of P/Ps	Investment Requirement (in ₱ Million)			Total
		2020	2021	2022	
MMDA-SWMO	7	270.92	213.90	2,392.24	2,877.06
DENR-NCR	7	78.61	86.79	80.41	245.81
DENR-PRC MO	2	12.69	51.66	166.87	231.21
EMB-NCR	6	3.26	120.35	36.85	160.46
TOTAL	22	365.48	472.69	2,676.37	3,514.54

P/Ps of the MMDA-SWMO make up the highest investment requirement for the Sector. The Establishment of an ISWDF (₱915.1 Million) has the largest share followed by Metropolitan Manila Disaster Risk Reduction Management and Resiliency Program⁴ and the Metro Manila Emergency Flood Monitoring and Warning System⁵, respectively (Table 9).

The ISDWF is proposed to be implemented pursuant to RA 7924 mandating MMDA to establish and operate an SLF and in accordance with the continuing mandamus issued by the Supreme Court which directed MMDA to establish its own SLF. The proposed ISDWF will be situated south of Metro Manila and is targeted to receive at least 7,133.51 cu.m. garbage daily from the five (5) local government units of Makati, Pasay, Parañaque, Las Piñas, and Muntinlupa.

⁴ Project cost comprises of funding requirements for the period 2020 to 2022

⁵ Project cost comprises of funding requirements for the period 2020 to 2022

Furthermore, the Metropolitan Manila Disaster Risk Reduction Management and Resiliency Program aims to establish the MMDRRMTC and four (4) MMEOCs which will be the permanent disaster operations centers of Metro Manila's geographical sectors. The Metro Manila Emergency Flood Monitoring and Warning System, on the other hand, aims to provide an early flood warning system that can detect, measure, forecast, and disseminate to motorists and the general public accurate weather and flood information and advisory on a real-time basis.

In addition to the abovementioned programs and projects, MMDA will also implement Urban Re-greening and Renewal Program (₱313.67 Million), Safe Closure and Rehabilitation Plan for the Carmona Sanitary Landfill (₱300.08 Million), among others.

Table 9. Top Three P/Ps with Highest Investment Requirements for the Environmental Development Sector

Program/Project	Investment Requirement (in ₱ Million)			Total
	2020	2021	2022	
Establishment of an ISWDF	0.10	15.00	900.00	915.10
Metropolitan Manila Disaster Risk Reduction Management and Resiliency Program	-	-	842.26	842.26
Metro Manila Emergency Flood Monitoring and Warning System	-	-	333.75	333.75

Secondly, the majority of the investment requirement of the DENR-NCR will fund Phase I of the Manila Bay Rehabilitation Program (₱192.61 Million). It is implemented following the Writ of Continuing Mandamus of the Supreme Court which directed concerned government agencies, local government units, and the private sector to clean up, rehabilitate, and preserve, restore and maintain the waters of Manila Bay⁶ with an SB water classification⁷. Phase I covers intensive clean up and water quality improvement through continuous conduct of clean up along designated waterways and esteros, inspection of leaks and repair of old sewer lines, provision of temporary sanitation facilities to ISFs residing along esteros and shorelines, reduction of fecal coliform level and toxic discharges from houses and establishments by

⁶ Administrative Order No. 16 "Expediting the Rehabilitation and Restoration of the Coastal and Marine Ecosystem of the Manila Bay and Creating the Manila Bay Task Force, p. 1. (2019).

⁷ Class SB pertains to water bodies suitable for commercial propagation of shellfish and intended as spawning areas for milkfish (*Chanos chanos*) and similar species, for ecotourism and recreational activities, and primary contact recreation (bathing, swimming, skin diving, etc.)

connecting them to existing STPs, and proper implementation of solid waste management. Planning for the relocation of ISFs will likewise commence under Phase I of the Program⁸.

On the other hand, the main budgetary requirement for the DENR-PRCMO is for the implementation of its Environmental Enforcement Program which undertakes regular clean-up operations and monitoring of Pasig River, San Juan River, and the 47 minor tributaries of the Pasig River to ensure that solid waste and other floating debris are intercepted and collected (₱121.57 Million) while EMB-NCR's largest share of budgetary requirement is for the upgrading and improvement of its air quality monitoring stations. CAMS will be installed in the City of Valenzuela and Quezon City to complete the designation of attainment and non-attainment areas in the region. This will ultimately contribute to a more extensive monitoring of Metro Manila's ambient air quality.

Table 10 shows the detailed investment program under the Environmental Development Sector.

⁸ Priority Activity is the Implementation of Operational Plan for the Manila Bay Coastal Strategy 2017–2022. (n.d.). Department of Environment and Natural Resources. Retrieved April 26, 2021, from <https://www.denr.gov.ph/index.php?id=794&page=80&sort&filter&sea#:~:text=It%20aims%20to%20restore%20the,Mandamus%20of%20the%20Supreme%20Court.&text=On%20January%2027%2C%202019%2C%20DENR,at%20the%20Baywalk%20in%20Manila>.

Investment Program under the Environment Development Sector

Table 10. Detailed Investment Program on Ensuring Ecological Integrity, Clean and Healthy Environment

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
CHAPTER 14 SUB-TOTAL				365,480,964.76	472,694,617.48	2,676,365,038.53	3,514,540,620.77						
DENR-001	Urban Greening Program	Maintenance and Protection of NGP sites	Metro Manila	550,000.00	-	-	550,000.00	GAA	DENR-NCR	2020-2022	Highly-urbanized centers like Metro Manila need enough greenspaces to support healthy living and ensure to breath clean air. Thus, there is a need to increase greened areas through Urban Greening or National Greening Program. To ensure higher survival rates of seedlings planted, established NGP sites are subjected to 5-years maintenance and protection activities. These include conduct of regular patrolling/monitoring, watering, weeding, replanting, and pest and diseases management.	Capital Investment	Ongoing
DENR-001	Urban Greening Program	Seedling production from Mechanized and Modernized Forest Nursery in support to urban greening and urban agriculture	Taguig City	5,000,000.00	5,000,000.00	5,000,000.00	15,000,000.00	GAA	DENR-NCR	2020-2022	The establishment of Mechanized and Modernized Forest Nursery is in support to the implementation of National Greening Program, or Urban Greening Program in particular to NCR by providing seedling requirement. In NCR, aside from the Urban Greening of the Office, our seedlings produced also cater the needs of different LGUs of the region.	Capital Investment	Ongoing
DENR-001	Urban Greening Program	Enhancement and Maintenance of Urban Parks including conduct of Tree Care and Management activity	Metro Manila	200,000.00	233,000.00	256,000.00	689,000.00	GAA	DENR-NCR, LGUs	2020-2022	In support to the vision of the DENR to provide clean and healthy environment, NCR needs to maintain and enhance our existing green spaces, like the urban parks. Hence, trees in these parks are inventoried, diagnosed and treated to prolonge its lifespan, continuously sequester carbon, and ultimately, clean the air.	Capital Investment	Ongoing
DENR-002	Forest Protection Program	Capacity building for DENR-NCR Field Personnel and Enhance Their Skills and Competencies for Effective Protection of Forests and Plantations for Biodiversity Conservation	Metro Manila	400,000.00	440,000.00	484,000.00	1,324,000.00	GAA	DENR-NCR	2020-2022	Field Personnel are trained to enhance their skills and competencies in the protection of our forest and biodiversity.	Capital Investment	Ongoing
DENR-002	Forest Protection Program	Effective Patrolling and Surveillance of Identified Entry Points/Sites	Metro Manila	160,000.00	176,000.00	194,000.00	530,000.00	GAA	DENR-NCR	2020-2022	10 Identified Entry points/sites are being patrolled and monitored for any illegal forest products transported in Metro Manila.	Capital Investment	Ongoing

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
DENR-002	Forest Protection Program	Conduct of Patrolling in the Biodiversity Conservation Areas through Lawin System	Metro Manila	338,000.00	372,000.00	409,000.00	1,119,000.00	GAA	DENR-NCR	2020-2022	Lawin Patrollers conduct regular monitoring within the conservation areas to prevent any threats or disturbance with those areas.	Capital Investment	Ongoing
DENR-003	Issuance of Protected Area Community- based Resource Management Agreement and Monitoring of Protected Areas, Wildlife, Coastal and Marine Resources	Surveillance/Monitoring of Wildlife at Seaport and Airport	Metro Manila	150,000.00	220,000.00	242,000.00	612,000.00	GAA	DENR-NCR	2020-2022	NCR is considered as the center of wildlife trading. Hence, a surveillance and monitoring operation at entry- and exit-points, both in airport and seaport, has continuously in place and strengthen to ensure all wildlife-related trades are legal, and wildlife and its by-products are safe and free from diseases.	Capital Investment	Ongoing
DENR-003	Issuance of Protected Area Community- based Resource Management Agreement and Monitoring of Protected Areas, Wildlife, Coastal and Marine Resources	Coordination with Other Law Enforcement Agencies	Metro Manila	40,000.00	44,000.00	48,000.00	132,000.00	GAA	DENR-NCR	2020-2022	As part of surveillance and enforcement operations, DENR NCR has established a network among the other Law Enforcement Agencies. 				2020	2021	2022	Total						
											the meeting of NDRRMC through the Office of the Civil Defense (OCD) last May 29, 2019 in view of the approval of the Council's recommendations during the aforementioned 37th Cabinet Meeting, to wit: "Bureau of Fire Protection, AFP, PNP and MMDA to develop capability to conduct multiple CSSR and USAR and ensure inclusion of budgetary requirements in the Fiscal Year (FY) 2020 budget in coordination with the DBM". The foregoing plans, programs and activities of the Public Safety Division is based on the thematic areas of National Disaster Risk Reduction and Management Plan namely, Disaster Preparedness and Disaster Response.		
MMDA-009	Metro Manila Emergency Radio Communication Network		NCR	-	-	68,222,050.00	68,222,050.00	GAA	MMCMMC-FCIC	2019-2022	In the event that Metro Manila and neighboring provinces experienced strong ground shaking caused by the movement of the West Valley Fault, it is expected that there will be significant damage on properties and lives. Road network along the metropolis will be devastated, deliveries of emergency and basic commodities to the affected areas will be a challenge to the first responders attending the incident. Information and Communication Technology (ICT) systems are rendered non-operational, which may result to the non-availability of voice, data, internet, television and radio broadcast services that is vital on disaster management. Affected Metro Manila LGUs cannot seek help from neighboring cities and provinces due to unavailability of commercial telecom companies.	Capital Investment	Proposed

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
											The Metro Manila Emergency Radio Communication Network can provide rapid communication link between the Emergency Operation Center of the Metro Manila Disaster Risk Reduction and Management Council (MMDRRMC), assisting regions, Area Command Team assigned at the Four Quadrants of Metro Manila, and Metro Manila LGUs. Prepositioned communication equipment will be installed on vital sites to provide rapid emergency communication network for coordination purposes, situational assessment, report generation and resource deployment. The network can provide basic communication support and services (voice and data) and two-way radio communication to the NCR and Metro Manila LGUs' Incident Management Team and Operating Units deployed on the affected areas. The components of the project are as follows: 1. Establishment of five (5) digital radio repeater 2. Installation of Digital Base Radio in 17 Metro Manila Local DRRM Office, four quadrants of MMDA Incident Command Post, Emergency Operation Center for National and NCR DRRMC and 16 MMDRRMC attached agencies 3. Fabrication and installation of antenna pole for Antipolo Relay Station and MMCMM-FCIC.

MMDA-010	Metro Manila Disaster and Early Warning System for Community-Preparedness Project		NCR	-	-	103,979,760.00	103,979,760.00	GAA	MMCMMC-FCIC	2022-2023	As the chair of the Metro Manila Disaster Risk Reduction and Management Council (MMDRRMC) and to strengthen the capacity of the Metro Manila Crisis Monitoring and Management Center (MMCMMC), MMDA proposes the Metro Manila Disaster and Early Warning System for Community-Preparedness Project. This is also in line with the study on the Metro Manila Earthquake Impact Reduction Study conducted by JICA, MMDA and PHIVOLCS in 2002-2004 which discusses that Metro Manila may be at high risk of a tsunami in case the Manila Trench generates a	Capital Investment	Proposed
											Magnitude 7.9 earthquake and can induce a tsunami as high as four (4) meters along the western part of Metro Manila. This is the second worst-case scenario that might affect the safety and properties of the people in Metro Manila. The objectives of the project is to provide early warning system on people residing and traversing along the coastal areas of Metro Manila from the hazard brought about by tsunami caused by the strong movement of the Manila Trench. The system will also be used as Public Address System during typhoon and extreme weather that may cause storm surge along the area. It can also be utilized for information dissemination during high density gatherings and planned events situated along the coastal area. The components of the project are as follows: 1. Establishment of Digital Radio Repeater 2. Installation of 19 Digital Electronic Siren along the Coastal Areas of Metro Manila 3. Establishment of Command Center at MMCMMC-MMDA and PHIVOLCS

DEVELOPMENT ADMINISTRATION SECTOR

Introduction

The development administration sector translates the strategies and outcomes under Chapter 8: “Reducing Vulnerability of Individuals and Families” and Chapter 12: “Ensuring Security, Public Order, and Safety” of the RDP-NCR into P/Ps.

Linkage of the Development Administration Sector under the RDIP-NCR with the RDP-NCR

Strategies under Chapter 8 of the RDP-NCR focus on mitigating the risks specifically environmental, social and governance, and economic and labor. By 2022, there will be improved access to basic social services and social protection programs and an increased provision of assistance and opportunities for indigent households and families, child laborers, and OFWs.

Moreover, targets under Chapter 12 of the RDP-NCR are to increase the Crime Solution Efficiency Rate for index and non-index crimes, and decrease the number of fire incidents in the region. By 2022, the firetruck-to-population ratio is also targeted to increase to one (1) fire truck for every 28,000 population from one (1) fire truck to 50,106 population in 2015. In addition, there will be one BJMP personnel for every seven PDL while the congestion rate of jails and detention centers will decrease to 218.68 percent from 782.92 percent in 2016.

Summary of the Investment Requirements under Development Administration Sector

The Development Administration Sector has a total investment requirement amounting to ₱30,569.44 Million to fund a total of 47 P/Ps for implementation of the OCD, DSWD, GSIS, BFP, PNP-NCRPO, DOLE-NCR, BJMP, and the DPWH.

28 P/Ps are responsive to the strategies and outcomes of Chapter 8: “Reducing Vulnerability of Individuals and Families” (85.6%) while the remaining 14.4 percent are required to implement a total of 19 P/Ps under Chapter 12: “Ensuring Security, Public Order, and Safety” (*Figure 5*).

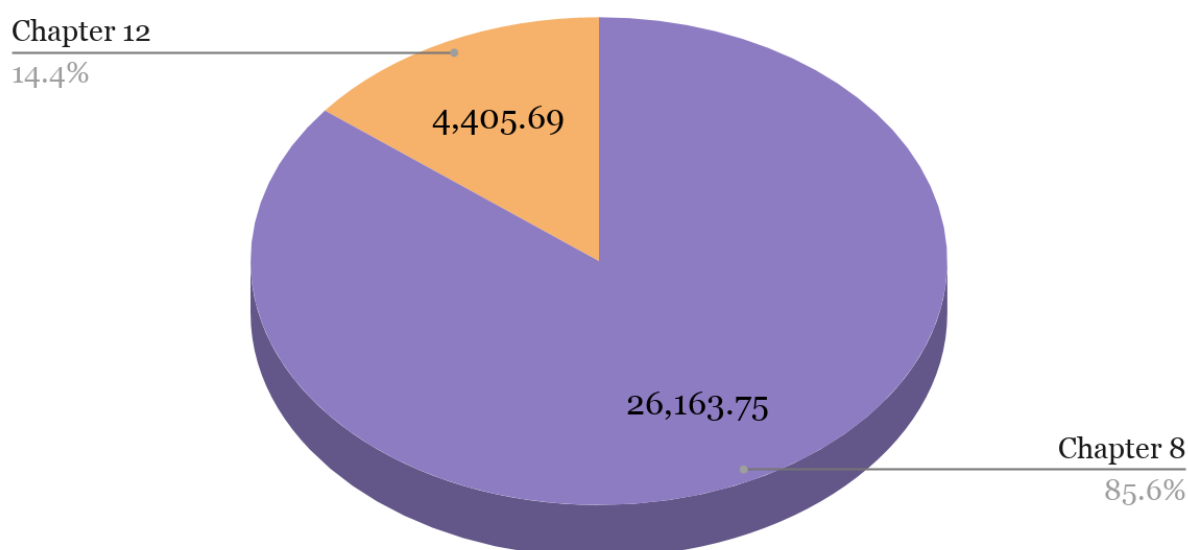

Figure 5. Percent Share of Investment Requirements per Chapter under the Development Administration Sector (in ₱ Million)

See Table 11 for the annual investment targets from 2020 to 2022 under Chapters 8 and 12.

Table 11. Summary of Investment Requirements for the Development Administration Sector, by Chapter

Chapter	Number of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	TOTAL
Chapter 8	28	8,184.44	10,056.16	7,923.15	26,163.75
Chapter 12	19	3,025.83	540.59	839.27	4,405.69
TOTAL	47	11,210.27	10,596.75	8,762.42	30,569.44

In terms of investment targets by implementing agency, Figure 6 shows that DSWD-NCR has the highest investment requirement for 15 P/Ps and makes up 84.9 percent of the total investment requirement for the Sector followed by the BJMP-NCR with 8.4 percent share to implement 11 P/Ps and the PNP-NCRPO with 5.8 percent share comprised of 4 P/Ps. DOLE-NCR, DPWH-NCR, BFP-NCR, and OCD-NCR have the least percent shares at 0.6, 0.1, 0.09, and 0.04, respectively.

Table 12 shows the total investment targets by implementing agency from 2020 to 2022.

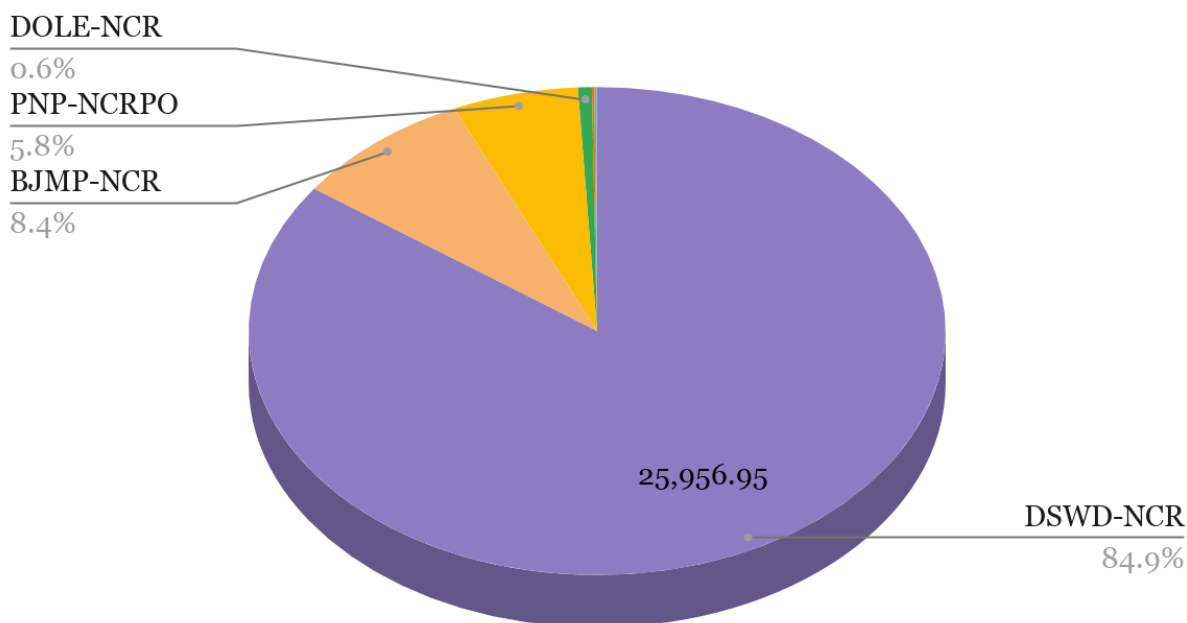

Figure 6. Percent Share of Investment Requirements per Implementing Agency under the Development Administration Sector

Table 12. Summary of Investment Requirements for Development Administration Sector, By Implementing Agency

Agency	Number of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	Total
DSWD-NCR	15	8,005.47	10,042.63	7,908.86	25,956.95
BJMP-NCR	11	2,556.62	0.00	0.00	2,556.62
PNP-NCRPO	4	459.46	510.84	815.90	1,786.20
DOLE-NCR	2	176.00	10.00	10.00	196.00
DPWH-NCR	1	5.25	29.75	0.00	35.00
BFP-NCR	3	4.50	-	23.37	27.87
OCD-NCR	10	2.98	3.53	4.29	10.80
GSIS	1	Dependent on the number of loan applications			
TOTAL	45	11,034.27	10,586.75	8,752.42	30,373.44

The 4Ps makes up the largest investment targets for the Sector (₱16,252.65 Million) followed by the Social Pension (SocPen) Program (₱3,995.77 Million) and the AICS (₱3,556.39 Million) (Table 13).

Table 13. Top Three P/Ps with Highest Investment Requirement for the Development Administration Sector

Program/Project	Investment Requirement (in ₱ Million)			Total
	2020	2021	2022	
4Ps	5,378.12	5,168.88	5,705.65	16,252.65
SocPen Program	1,272.08	1,271.64	1,398.06	3,941.77
AICS	620.89	2,935.50	TBD	3,556.39

4Ps is the national poverty reduction strategy of the Government⁹ which focuses on human capital development through the provision of conditional cash grants to eligible poor households. The Program aims to respond to the immediate needs of extremely poor families; and break the intergenerational cycle of poverty through investments on health and education of children belonging to poor households. Health grants are provided per household while education grants are provided per child, provided that a household may register a maximum of three (3) children¹⁰.

SocPen and AICS provide assistance to senior citizens and individuals in crisis situations including disaster victims, respectively. Indigent senior citizens are provided with financial assistance to augment their daily subsistence and other medical needs while individuals affected by disasters or calamities are supported with immediate psychosocial interventions, limited financial and in-kind assistance.

The funding for these programs were augmented further to respond to the COVID-19 pandemic.

Other programs and projects that will be implemented by the DSWD-NCR include Residential and the Non-Residential Care Sub-Program, the Sustainable Livelihood Program, among others.

The construction of New Caloocan City Jail (₱1,432.21 Million), meanwhile, will require the highest investment for the BJMP-NCR. In relation to this, the DPWH-NCR will also construct the Mandaluyong City Jail (₱35.00 Million). These projects will contribute to the decongestion of jails in the region. Moreover, the construction of Paso De Blas Fire Station (₱19.47 Million) is also programmed to be implemented by the BFP-NCR by 2022.

PNP-NCRPO will also implement its regular programs to improve the rate of crime solution efficiency by 2022.

⁹ Republic Act No. 11310 | GOVPH. (2019, April 17). Official Gazette of the Republic of the Philippines. <https://www.officialgazette.gov.ph/2019/04/17/republic-act-no-11310/>

¹⁰ Pantawid Pamilyang Pilipino Program | GOVPH. (n.d.). Official Gazette of the Republic of the Philippines. <https://www.officialgazette.gov.ph/programs/conditional-cash-transfer/>

DOLE, on the other hand, will also implement the Enhanced TUPAD (₱174 Million) and DILEEP (₱22 Million). These programs aim to reduce the vulnerabilities of the working poor, displaced workers, vulnerable and marginalized workers through emergency employment and/or promotion of entrepreneurship and community enterprises.

The TUPAD #BKBK specifically provides temporary wage employment to the displaced, underemployed, and self-employed workers affected by the COVID-19 pandemic by requiring them to disinfect and sanitize their own residence and its contiguous vicinity.

Meanwhile, OCD-NCR will provide technical assistance to enhance the capacities of communities and enable the public sector to mitigate, respond, and recover from environmental risks and hazards. Lastly, GSIS will make available its emergency loan facility that will provide assistance to families and individuals affected by calamities and disasters.

Tables 14 and 15 provide the detailed list of P/Ps that correspond to this Sector.

Social
Development
Sector

SOCIAL DEVELOPMENT SECTOR

Introduction

The social development sector translates into P/Ps the strategies and outcomes under Chapter 5: “Promoting Awareness and Valuing Cultural Diversity”; Chapter 7: “Transforming Human Capital Development towards Greater Agility”; Chapter 9: “Building Safe and Secure Communities”; and Chapter 10: “Prospecting for a Demographic Dividend” of the RDP-NCR.

Linkage of the Social Development Sector under the RDIP-NCR with the RDP-NCR

The P/Ps identified under the Social Development Sector will contribute to the attainment of the following outcomes:

- a. Promote and value cultural diversity to recognize the cultural identity as well as the distinct cultural resources of the community and at the same time can properly record a heritage resource in NCR. Validation and creation of a functional Local Culture and Arts Council, marketing promotion and development communication program are required to attain the formulation of a local culture development plan and to increase awareness and enhance the social fabric or *malasakit* while defining the nation and the locality.
- b. Transform human development towards greater agility through robust investments on nutrition and health, education, and income-earning abilities. This entails increased life expectancy and the proportion of health manpower and health facilities to population ratio. The rates of maternal, infant, neonatal, under five children mortality, the prevalence of underweight and stunted children, as well as the prevalence of communicable and non-communicable diseases shall also decrease. On education, the objective is to increase enrolment and completion rates; certification rate of TVET graduates; number of students awarded with scholarships, grants, and financial assistance; and number of researchers and scientists, number of patents and licenses. Beneficiaries for training for work and employment facilitation programs are also targeted to increase to improve income-earning abilities.
- c. Expand access to affordable, adequate, safe, and secure shelter in well-planned communities by attaining the targets for socialized and low-cost housing production in the region. To achieve this outcome, the housing sector will double up the housing production to meet the housing needs in the region.

- d. Accelerate demographic transition and maximize gains from demographic dividend. This would require a reduction in total age-dependency ratio, total fertility rate, proportion of women with unmet need for FP, and a decrease in adolescent pregnancy rate. Similarly, an increase in the contraceptive prevalence rate and life expectancy is perceived to facilitate demographic transition.

The outcomes are supportive to the three pillars of the RDP-NCR framework which is about enhancing the social fabric, transforming towards equity and resiliency, and increasing the growth potential.

Summary of the Investment Requirements under Social Development Sector

72 P/Ps amounting to ₱16,209.84 Million will be implemented to contribute to the plan targets and outcomes under the Sector. These will be implemented by NHA, MMCHD, NNC, UP, PSCA, POPCOM, DOT, PNU, TESDA, CHED, NCCA, PIA. *Refer to Table 16.*

Table 16. Summary of Investment Requirements for the Social Development Sector, By Implementing Agency

Agency	No. of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	Total
NHA	25	795.58	5,831.88	8,151.74	14,779.20
MMCHD	10	266.55	446.97	0.00	713.52
NNC-NCR	10	403.86	-	-	403.86
UP	6	148.40	-	-	148.40
PSCA	5	0.00	30.00	35.50	65.50
POPCOM-NCR	4	37.33	7.90	9.00	54.23
DOT-NCR	1	7.80	8.33	9.58	25.72
PNU	1	-	-	5.00	5.00
TESDA-NCR	2	1.35	2.17	2.92	6.44
CHED	4	0.54	1.54	1.14	3.22
NCCA	3	1.30	0.70	0.52	2.52
PIA-NCR	1	1.61	0.63	-	2.24
TOTAL	72	1,664.32	6,330.11	8,215.40	16,209.84

As shown on Figure 7, P/Ps responsive to the outcomes under Chapter 9: “Building Safe and Secure Communities” make up the largest portion of the total investment targets for the Sector (91.2%). 38 P/Ps under Chapter 7: “Transforming Human Capital Development towards Greater Agility” comes second with a 8.3 percent share. The total investment targets by Chapter are shown on Table 17.

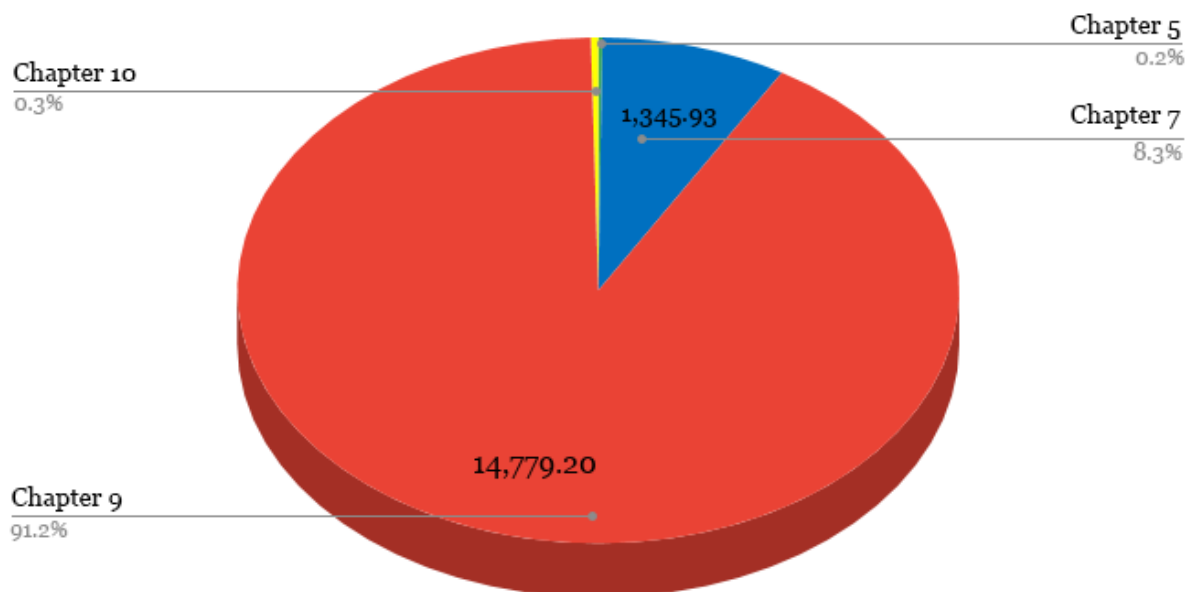

Figure 7. Percent Share of Investment Requirements per Chapter under the Social Development Sector

Table 17. Summary of Investment Requirements for the Social Development Sector, by chapter (in ₱ Million)

Chapter	Number of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	TOTAL
Chapter 5	6	10.71	9.66	10.10	30.48
Chapter 7	38	820.70	480.68	44.56	1,345.93
Chapter 9	25	795.58	5,831.88	8,151.74	14,779.20
Chapter 10	4	37.33	7.90	9.00	54.23
TOTAL	72	1,664.32	6,330.11	8,215.40	16,209.84

Among the implementing agencies, NHA has the highest percent share (91.2%) on the total investment requirement for the Sector followed by MMCHD (4.4%) and NNC-NCR (2.5%) (Figure 8).

The construction of 32, five-storey low rise buildings in Bagumbong, Caloocan has the highest investment requirement (₱2,208.75 Million) for the Sector. This is followed by the implementation of the NLEX 8.2 In-City Resettlement High Rise Building (₱1,883.94 Million) and the Relocation Housing for families affected by C-5 SouthLink Project (₱1,325.01 Million), respectively. These projects will translate to the construction of 13,560 housing units in-city and off-city for the affected Informal Settler Families (ISFs) by government infrastructure projects (Table 18).

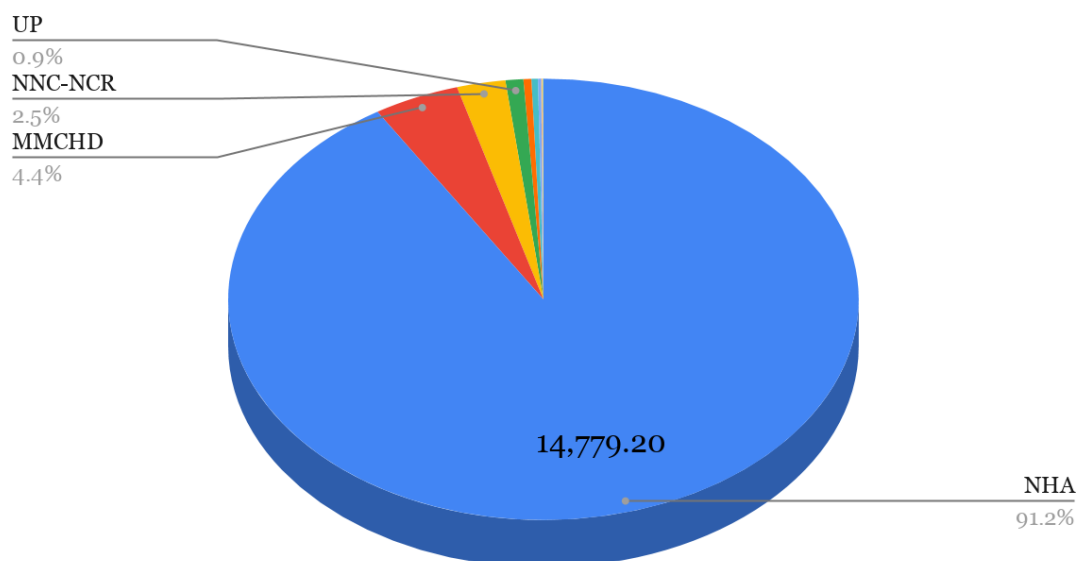

Figure 8. Investment Requirements for the Social Development Sector, By Implementing Agency (in ₱ Million)

Table 18. Top Three P/Ps with Highest Investment Requirement for the Social Development Sector

Program/Project	Investment Requirement (in ₱ Million)			
	2020	2021	2022	Total
Construction of Thirty Two (32), 5-Storey Low Rise Bldg in Bagumbong	348.00	930.38	930.38	2,208.75
NLEX 8.2 In-City Resettlement, High Rise Building	-	941.97	941.97	1,883.94
Relocation Housing for families affected by C-5 SouthLink Project	-	198.75	1,126.26	1,325.01

The summary of investment targets per chapter is discussed below.

Chapter 5: "Promoting Awareness and Valuing Cultural Diversity"

A total of five (5) P/Ps amounting to ₱30.48 Million will be implemented by the NCCA, DOT, and the PIA to respond to the strategies under Chapter 5.

The El Deposito Underground Museum implemented by the NHCP in 2018 was completed in 2020 hence, was not captured in the RDIP-NCR yet remains responsive to the Chapter's targets and outcomes.

Chapter 7: “Transforming Human Capital Development towards Greater Agility”

A total of 38 P/Ps are responsive to the outcomes and strategies under Chapter 7. In terms of health, MMCHD will implement several capacity building activities for the LGUs, partners, and other stakeholders to improve the delivery of DOH’s programs and policy-making decisions and strategies. This includes the implementation of Public Health Management (₱435.11 Million), HRH and Institutional Capacity Management (₱6.77 Million), Local Health Systems Development and Assistance (₱50.99 Million).

In terms of improving access and overall quality of education, TESDA will implement its scholarship programs and CACW Program specifically for industry workers. TESDA’s scholarship program aims to promote TVET and provide access and financial assistance to deserving enrollees in the region¹¹. Amid the COVID-19 pandemic, TESDA encourages institutions to offer programs with flexible learning modes of delivery. The CACW program, on the other hand, aims to enhance their competitiveness, employability and productivity¹².

Furthermore, P/Ps that will be implemented by CHED-NCR will focus on innovation in the processing and management of regular programs of CHED which includes system development for records management, permits issuance, and monitoring of program offerings of HEIs.

Other projects that will be implemented specifically by SUCs aim to improve the learning experience of students. In particular, PNU will implement the Elaboration of Philippine Professional Standards for Teachers which recognizes the importance of the development and advancement of teachers and enabling an improved quality of teaching to attain quality education¹³.

Moreover, PSCA is proposing to acquire Cutaway Mock-Up Engine and Electrical System Trainer through their Higher Education Program that will comply with the requirements of CAAP for the issuance and renewal of certifications, namely the ATOC and the STF certification. However, while EARIST submitted theirs for possible inclusion in the RDIP-NCR, P/Ps were dropped as they fall under the exclusion list of RDIP-NCR.

Chapter 9: “Building Safe and Secure Communities”

Aside from the resettlement projects mentioned in Table 18, NHA will also implement housing projects to address the needs of ISFs living along danger areas and those affected by infrastructure projects. Other projects will also include settlement upgrading, and the implementation of housing programs for government employees such as the PNP and the AFP. In the case of settlement upgrading, NHA is targeting 1,107 ISFs.

¹³ https://www.deped.gov.ph/wp-content/uploads/2017/08/DO_s2017_042-1.pdf

This in the form of renewing the areas affected to either zonal improvement programs, slum improvement or resettlement programs. For the socialized housing program, the total target housing units to be constructed is 8,406.

Chapter 10: “Prospecting for a Demographic Dividend”

POPCOM-NCR will undertake demand generation and advocacy activities to capacitate the LGUs to effectively link and augment service delivery of commodities and dissemination of appropriate information in order to attain zero unmet needs for family planning, and reduce adolescent pregnancies and engagement in risky behaviours. Ultimately, the programs will also contribute in improving maternal, neonatal and child health, and nutrition. In terms of integration of population and development, POPCOM-NCR will provide technical assistance to LGUs for the establishment and integration of population dynamics and population-related indicators and data for local planning and programming.

Lastly, a study to estimate the day time population in the region is also proposed to be implemented by POPCOM-NCR to serve as a reference tool for the Government and the LGUs in planning, programming, and budgeting of relevant programs and policies.

CHED-001	Monitoring and evaluation of performance of higher education programs	Digitization of CHED-NCR records (in preparation for the development of the Records Management System)	Quezon City	-	500,000.00	-	500,000.00	GAA	CHED-NCR	1 YEAR	Outsourcing of services for the digitization of existing records. Due to limited office space and voluminous documents we receive from 343 HEIs with 4,076 program offerings and enrolled tertiary students of around 600,000, there is a need to improve the existing manual system by digitizing the voluminous records of the Office for a more efficient and faster delivery of its service in tracking and retrieving of HEI documents and in complying with the Ease of Doing Business Act. Likewise, due to the new normal situation wherein on-line transaction is preferred because of COVID, there is a need to set-up a database for systematic/computerized verification and issuance of certifications for requesting students/graduates/stakeholders.	Capital Investment	Proposed
CHED-002	HIGHER EDUCATION REGULATION SERVICES Monitoring and evaluation of performance of higher education programs	Website Development		100,000.00	200,000.00	220,000.00	520,000.00	GAA	CHED-NCR	Multi-year	Development of website that will link all systems to be developed by the Office and to cope with the new normal and enable a digital CHED-NCR Office. This will be the official website for CHED National Capital Region. It will provide general information of CHED-NCR Office and the HEIs in the region. It will hold all the posts, announcements and events of the region.	Capital Investment	Ongoing
CHED-003	HIGHER EDUCATION REGULATION SERVICES Monitoring and evaluation of performance of higher education programs	Development of Online Application System for Permit and Recognition	Quezon City	220,000.00	418,000.00	459,800.00	1,097,800.00	GAA	CHED-NCR	Multi-year	Outsourcing of services for the development of Online Application System for Permits and Recognition. Due to the emergence of COVID 19 and the present restrictions of Communittee Quarantine, the HEIs hampered and restricted in submitting application documents and proof of compliance for program offerings and recognition which are needed to operate degree programs. With the limited face to face office transactions, there is a need to provide an online system for applications to facilitate timely processing and evaluation of documents to respond to the needs of the time. The system will provide pre-screening process to ensure that only apllication compliant with the minimum requirements are accepted.	Capital Investment	Ongoing

				2020	2021	2022	Total						
CHED-004	HIGHER EDUCATION REGULATION SERVICES Monitoring and evaluation of performance of higher education programs	Development of On-Line Monitoring System	Quezon City	220,000.00	418,000.00	459,800.00	1,097,800.00	GAA	CHED-NCR	Multi-year	Outsourcing of services for the development of Online Monitoring System. The emergence of COVID 19 and the present restrictions of Communittee Quarantine restricted the regular monitoring activities of the Office. The online monitoring system will faciliate the tracking of the status of program offerings of HEIs to ensure complaince with minimum requirements set by CHED. With the limited face to face, the online monitoring system will faciliate the evaluation of documents and provide database system of needed information. It will also help in shorlisting HEIs that needs to be visited since ocular visits are also limited with the current crisis.	Capital Investment	Ongoing
MMCHD-001	Health Policy and Standards Development Program	Health Sector Research Development	Whole of NCR	1,278,000.00	1,301,000.00	-	2,579,000.00	GAA	DOH-MMCHD	2020-2021	Conduct research in response to UHC Act such as UHC Integration researches and other DOH programs in accordance with the policies/guidelines provided by the DOH-Central Office. The health research may be in the form of a small-scale research study, a case study, a program evaluation or report on field placement and in collaboration with other government agencies/private institutions/stakeholders. Expected outcome: Implementation of health research towards the attainment and commitments of the UHC.	Technical Assistance	Ongoing
MMCHD-002	Health Systems Strengthening Program	Local Health Systems Development and Assistance	Whole of NCR	21,521,000.00	29,478,000.00	-	50,999,000.00	GAA	DOH-MMCHD	2020-2021	Ensure access to effective, safe and quality health care services through technical and logistics support to LGUs. The technical assistance includes planning, capacity building, health information, implementation of DOH programs, activities and projects and funding support in line with the Local Investment Plan for Health (LIPH). Expected outcome: Successful TA provided to LGUs	Technical Assistance	Ongoing
MMCHD-003	Health Systems Strengthening Program	HRH and Institutional Capacity Management	Whole of NCR	4,197,000.00	2,568,000.00	-	6,765,000.00	GAA	DOH-MMCHD	2020-2021	Ensure that core organizational and technical competencies are exhibite by MMCHD employees, and interventions are continously being conducted, developed, and updated. Learning and Development interventions are being administered to plantilla personnel including job orders through job-based competencies and performance (i.e., training, job rotations coaching, mentoring, internships, etc.). Expected Outcome: Competent MMCHD staff to deliver quality health services to LGUs and other partners	Technical Assistance	Ongoing

Other accrediting bodies such as International Standardization Organization (ISO) and Regional Quality Assurance Team (RQAT) of the Commission on Higher Education (CHED) strongly recommended the acquisition of this equipment to provide the students, specifically the AET program.	Capital Investment	Proposed
											The Avionics trainers simulate aircraft cockpit circuitry, and are of ample dimensions for easy reach and use of all students regardless of gender orientation/identity.		
											The equipment is design to teach about an aircraft's electrical system. This trainer gives hands-on training to the students the functions and operations of avionics electrical system parts and familiarize to electrical components of aircraft. The system is laid out to depict a typical aircraft electrical system, and contains standard aircraft components and wiring similar to actual aircraft electrical system. Students will not only learn the functionality of each module, but they will also develop logical and systematic approach to perform troubleshooting tasks. Students will also learn the principle of operation of various aircraft system as well as to perform maintenance task closely replicate the real-life scenarios. This will also help build the knowledge of the students to be globally competitive in the aviation industry.

PSCA-005	Higher Education Programs: Bachelor of Science in Aircraft Maintenance Technology (BSAMT) and Bachelor of Science in Aviation Electronics Technology (BSAET) Output Indicator No. 1: Percentage of undergraduate student population enrolled in CHED-identified and RDC-identified priority programs. Output Indicator No.2: Percentage of undergraduate programs with accreditation.	Procurement of Technical Laboratory Tools and Equipment for BSAMT and BSAET Students of Four (4) PhilSCA Campuses	Pasay City / Batangas / Pampanga / Cebu	-	-	10,000,000.00	10,000,000.00	GAA	PSCA	2022	The procurement of Technical Laboratory Tools and Equipment of Bachelor of Science in Aircraft Maintenance Technology (BSAMT) and Bachelor of Science in Aviation Electronics Technology (BSAET) for the four (4) PhilSCA Campuses is in preparation for the limited face-to-face of PhilSCA Students. This will also augment the limited technical tools and equipment in the AMT and AET laboratories as required and in compliance with the major requirement of the Civil Aviation Authority of the Philippines (CAAP) for the renewal of the Approved Training Organization Certification (ATOC) in the four (4) PhilSCA campuses and Skills Test Facility (STF) accreditation of PhilSCA in CY 2022. Other accrediting bodies such as International Standardization Organization (ISO) and Regional Quality Assurance Team (RQAT) of the Commission on Higher Education (CHED) strongly recommended the acquisition of this equipment to provide the students, specifically the AMT and AET programs, with an advanced, hands-on learning experience on aircraft maintenance preparing to become highly-skilled and world-class aviation professionals the country can be very proud of. The tools are seized to conform to industry standards, and for easy handling and use of all students regardless of gender orientation/identity. For safer storage, toolkits were specified to be foam lined to prolong the integrity of the tools. The storage carts have wheels for convenient and secure transport across laboratories and rooms by lab personnel and students. Students of AMT and AET will be able to have a deeper understanding with the usage, checking, and testing of various tools and equipment used during aircraft maintenance operation. Having a full familiarization with the tools and equipment will develop their knowledge in advance and be able to apply in the field of aviation. It will build their skills on how, and what they are going to use when performing maintenance in aircraft. It will also help them to be more competitive in the aviation industry.	Capital Investment	Proposed
PSCA-006	Higher Education Program: Bachelor of Science in Aeronautical Engineering (BSAeE) Output Indicator No. 2: Percentage of undergraduate programs with accreditation.	Procurement of Equipment for the Fabrication Laboratory for BSAeE Students of PhilSCA Villamor Campus	Pasay City	-	-	5,500,000.00	5,500,000.00	GAA	PSCA	2022	Research and design which are expressed in the minimum sets of institutional and program outcomes are required by CHED as minimum standards for Bachelor of Science in Aeronautical Engineering (BSAeE) program. The compliance of these outcomes requires an output from Aeronautical Engineering students. The output must not be limited from the conceptual design, it must have a prototype which is to be tested and analyzed. Fabrication Laboratories or Fab lab offers a small-scale workshop for digital fabrication. Different scales and various materials can be used in fabrication controlled by computers. The procurement includes 3D Scanners, 3D Printers, CNC Machines, Laser Cutters and Computer with Designing Software	Capital Investment	Proposed

Sector

INFRASTRUCTURE DEVELOPMENT SECTOR

Introduction

The infrastructure development sector translates the strategies and outcomes under Chapter 13 of the RDP-NCR in order to attain reliable, resilient, and sustainable infrastructure facilities and services.

Linkage of the Infrastructure Sector of the RDIP with RDP

The infrastructure sector will implement P/Ps in transportation, flood control, water resources, power and energy, social infrastructure, and ICT. These intend to provide modern, seamless and effective transportation; water security and lives and properties protection from floods; available, reliable and affordable power supply; effective, consistent and interconnected affordable communication facilities and services; and sufficient, safe and accessible social infrastructure facilities and services.

Summary of the Investment Requirements under Infrastructure Sector

The total investment requirement for the Infrastructure Development Sector from 2020 to 2022 amounts to ₱1,088,813.37 Million for the 1,350 P/Ps to be implemented by the DOTr, MPC, DPWH-NCR, TRB, DPWH-FCMC, DPWH-BMC, MMDA, DPWH-RMC, DepEd-NCR, MWSS, DICT, LRTA, PNU, TUP, PPA, UP, PUP, DPWH-PPPS, RTU, and PSCA (Table 23).

Table 23. Summary of Investment Requirements for Infrastructure Development Sector, By Implementing Agency

Agency	No. of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	TOTAL
DOTR	22	85,455.76	279,380.09	214,571.63	579,407.49
MPC	3	99,200.00	190,000.00	0.00	289,200.00
DPWH-NCR	953	15,188.67	21,098.26	1,970.98	38,257.91
TRB	3	20,780.38	6,283.25	1,740.19	28,803.82
DPWH-FCMC	15	9,999.80	10,932.37	9,539.41	30,471.58
DPWH-BMC	3	1,788.59	1,218.95	12,867.12	15,874.66
MMDA	4	2,007.37	3,289.18	4,708.87	10,005.43
DPWH-RMC	4	2,144.25	2,577.00	4,152.97	8,874.22

Agency	No. of P/Ps	Investment Requirement (in ₱ Million)			
		2020	2021	2022	TOTAL
DepEd-NCR	275	5,207.01	2,772.71	262.29	8,242.01
MWSS	3	920.06	3,255.20	3,030.00	7,205.26
DICT	5	582.65	1,429.99	3,093.21	5,105.84
LRTA	24	67.00	857.37	3,693.80	4,618.17
PNU	7	22.00	62.53	974.36	1,058.89
TUP	10	25.00	57.30	1,102.50	1,184.80
PPA	3	12.31	19.50	800.00	831.81
UP	4	650.00	0.00	0.00	650.00
PUP	6	28.01	70.00	282.00	380.01
DPWH-PPPS	4	5,335.03	4,068.66	49,189.81	58,613.46
RTU	1	8.00	0.00	0.00	8.00
PSCA	1	20.00	0.00	0.00	20.00
TOTAL	1,350	249,441.89	527,392.33	311,979.14	1,088,813.37

As shown in Table 24, the NSCR System (PNR North 1 and PNR North 2) of the DOTr has the biggest investment requirement (₱352,314.00 Million) for the Sector. This is followed by the Metro Manila Subway Project (₱142,835.00 Million) and the Metro Manila Skyway Stage 3 Project (₱20,904.82 Million).

Table 24. Top Three P/Ps with Highest Investment Requirement for the Infrastructure Development Sector

Program/Project	Investment Requirement (in ₱ Million)			
	2020	2021	2022	Total
NSCR System (PNR North 1 and PNR North 2)	32,553.00	190,964.00	128,797.00	352,314.00
Metro Manila Subway Project	32,735.00	60,764.00	49,336.00	142,835.00
Metro Manila Skyway Stage 3	16,447.05	4,457.77		20,904.82

In terms of implementing agencies, DOTr has the biggest investment requirement comprising 53.2 percent of the total investment requirement for the Sector. This is followed by MPC 26.6 percent share and the PPPS and DPWH-NCR with 5.4 and 3.5 percent shares, respectively. (Figure 9).

¹⁴ Based on the list of IFPs as of 19 August 2020.

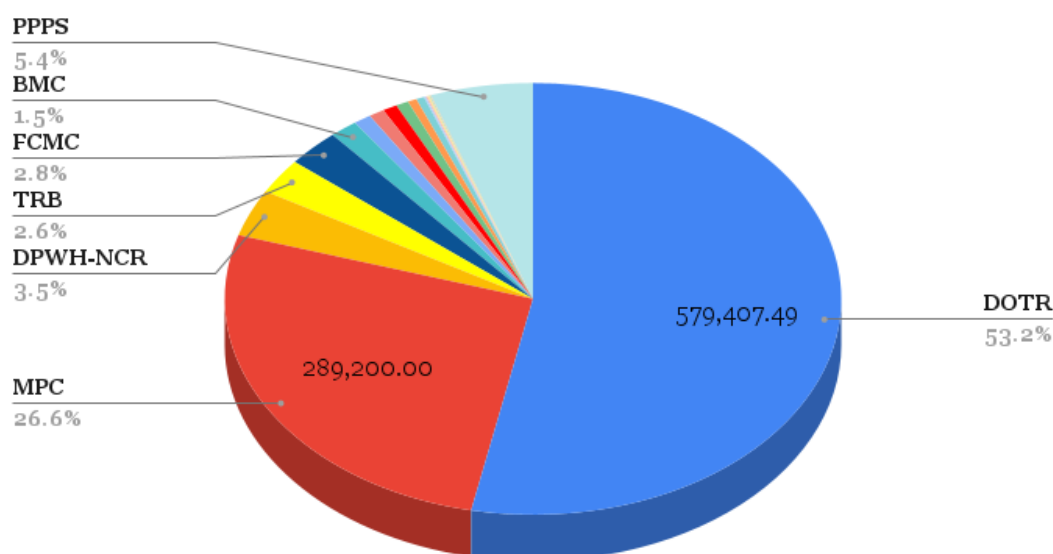

Figure 9. Percent Share of Investment Requirements per Implementing Agency under the Infrastructure Development Sector

The major contributor in the development of the region is the BBB Program which is composed of 104 IFPs, 25 of which are specifically implemented in NCR¹⁴. The purpose of this program is to reduce poverty by attracting foreign investors to generate more jobs and to provide efficient transportation for people and goods.

The subsequent discussion highlights the IFPs and non-IFPs that will translate the subsector outcomes of Chapter 13: “Accelerating Infrastructure Development” of the RDP-NCR.

Road Transport

IFPs under Road Transport

In terms of road transport P/Ps under the BBB Program, the total investment required amount is ₱111,516.99 Million for FY 2020 - 2022 (*Table 25*).

IFPs under the road transport subsector that will be implemented by the DPWH-PPPS amounts to ₱58,613.47 Million. The following P/Ps aim to provide adequate, accessible, reliable and safe access of people and goods across the neighboring regions:

- Metro Manila Expressway (C6) Project is approximately 32.66-km intended to run from Skyway/FTI in Taguig City to Batasan Complex in Quezon City. The project will connect the SLEX Skyway via FTI towards Batasan Complex in Quezon City and provide an alternate route from Parañaque to Quezon City passing through the developing areas of Taguig, Taytay, Antipolo and San Mateo to decongest EDSA, C-5 (CP Garcia), and other major arteries of Metro Manila and Rizal¹⁵.

¹⁵ SOUTHEAST METRO MANILA EXPRESSWAY (C6) PROJECT. (n.d.). Department of Public Works and Highways. <https://www.dpwh.gov.ph/dpwh/PPP/projs/MME>

Table 25. IFPs under Road Transport

	Project Title	Implementing Agency	Length	Project Cost (₱ Million)
1.	Metro Manila Expressway Project (C6)	PPPS	32.664 km	27,719.84
2.	Manila North Expressway Project: Segments 8.2, 9, & 10	PPPS	21.65 km	17,818.30
3.	NLEX SLEX Connector Road	PPPS	8.00 km	7,094.86
4.	C5 South Link Project	PPPS	7.70 km	5,980.46
5.	Metro Manila Skyway Stage 3 Project	TRB/Private Sector	18.83 km	20,904.82
6.	Southeast Metro Manila Expressway Project	TRB/Private Sector	32.60 km	5,220.57
7.	NLEX Segment 10 Exit Ramp to R-10	TRB/Private Sector	2.60 km	2,678.43
8.	Taguig City Integrated Terminal Exchange (TCITX)	DOTr		4,000.00
9.	BRT Line 1 (Quezon Ave)	DOTr	12.30 km	577.28
10.	Metro Manila Priority Bridges Seismic Improvement Project	DPWH-UPMO-BMC	212.54 km	4,729.07
11.	Bonifacio Global City to Ortigas Center Road Link Project: Sta. Monica-Lawton Bridge and Lawton Avenue to Global City Viaduct	DPWH-UPMO-RMC 1	961.43 m	3,647.77
12.	Priority Bridges crossing Pasig-Marikina River and Manggahan Floodway Bridges Construction Projects	DPWH-UPMO-BMC	6,581.20 km	11,145.59
			Total	111,516.99

- Manila North Expressway Project: Segments 8.2, 9 and 10 involve the 21.65 km extension of the NLEX from Mindanao Avenue, Quezon City to Circumferential Road 3 (C-3) in Caloocan City and to Commonwealth Avenue in Quezon City¹⁶.
 - Segment 8.2 - an 8.30-km 4-lane divided (2x2) expressway from Segment 8.1 at Mindanao Avenue up to Commonwealth Avenue in Quezon City. In this segment, 45,000 motorists per day will reduce travel time from 45 minutes to 10 minutes.
 - Segment 9 - a 2.42 km long four-lane road that connects NLEX Mindanao Avenue Link (Segment 8.1) at the SMART Connect Interchange with the McArthur Highway in Valenzuela City.
 - Segment 10 - a 5.58 km 6-lane divided (2x3) elevated expressway connecting McArthur Highway and C-3. It will utilize the existing PNR railroad tracks that cut across Valenzuela City and Malabon City. The purpose of this segment is to decongest Metro Manila by providing access to NLEX without passing through EDSA or the Balintawak Toll Plaza, improve the movement of cargo between NLEX and R-10, and reduce the travel time from more than 1 hour to 5 minutes of approximately 20,000 motorists per day from Valenzuela City to C-3 Caloocan City.
- NLEX-SLEX Connector Road is an 8-km elevated expressway extending the NLEX southward from the end of Segment 10 in C-3 Road, Caloocan City to PUP Sta. Mesa, Manila and connecting to the Skyway Stage 3, and traversing the PNR rail track. The project includes two (2) interchanges located at C-3 Road/5th Avenue, Caloocan and España, Manila. The project aims to stimulate development in Manila, Caloocan, Malabon and Navotas, as well as its surrounding areas; provide trucks with continuous alternative route and resolve truck-ban problems; provide better access to Manila North Harbor Port and airports (NAIA and Clark International Airports); and complete the connection of NLEX to SLEX. In this project, approximately 35,000 motorists/vehicles per day will benefit from the decrease of travel time from 2 hours to 20 minutes from SLEX to NLEX and 3 hours to 1 hour and 40 minutes from Clark to Calamba. It will also improve the connectivity between NAIA and Clark airports¹⁷.

¹⁶ NLEX HARBOR LINK PROJECT (Segments 8.1, 8.2, 9 & 10). (n.d.). Department of Public Works and Highways. https://www.dpwh.gov.ph/dpwh/PPP/projs/NLEX_harbor_linkPPP/projs/NLEX_harbor_link

¹⁷ NLEX-SLEX CONNECTOR ROAD PROJECT. (n.d.). Department of Public Works and Highways. <https://www.dpwh.gov.ph/dpwh/PPP/projs/NLEX-SLEX>

- C-5 South Link Project is a 7.70-km expressway that is 6-lane divided, stretching from R-1 Expressway to SLEX/C-5. The project aims to decongest the city traffic and connect major business districts in the areas of Makati and Taguig to Cavite, Parañaque, and Las Piñas. At the end of the construction, the project is expected to reduce the travel time from 40 to 10 minutes; provide seamless expressway connections between the R-1 Coastal Expressway and C-5 Road; and generate at least 1000 jobs during construction phase and at the operations and maintenance phase as well as other higher development impact¹⁸.

Furthermore, TRB has a total project cost of ₱28,803.75 Million consisting of three (3) IFPs to be implemented for FY 2020-2022 under the road sector, namely:

- The Metro Manila Skyway Stage 3 Project which has a total length of 18.83 km from Buendia, Makati City to the North Luzon Expressway in Balintawak, Quezon City. It aims to decongest traffic in Metro Manila especially C-4 (EDSA), C-5, and Central Metro Manila by as much as 55,000 vehicles daily; to reduce travel time from Buendia to Balintawak from two (2) hours to approximately 15 to 20 minutes; and to provide direct employment of around 6,000 jobs during construction plus additional of approximately 10,000 to 12,000 indirect jobs¹⁹.
- Southeast Metro Manila Expressway Project is a combination of elevated and at grade expressway with 32.60 km length mostly 6-lane divided by (2 x 3) lanes expressway from Skyway/FTI, Taguig City to Batasan Complex in Quezon City. The expressway is expected to decongest roads in Manila and Quezon City, particularly major roads like EDSA, C5, Ortigas Avenue and Ortigas Extension.
- NLEX Segment 10 Exit Ramp to R-10 is a 2.60 km 4-lane elevated ramp extending the NLEX Harbor Link Segment 10 exit to Radial Road 10 (R-10), using the C-3 Road as its route. The project will provide direct access between the port area and the northern provinces of Luzon and it will take only ten (10) minutes to travel from Port Area to NLEX²⁰.

Aside from the above mentioned projects, DOTr has a total investment of ₱8,573.48 Million included in the BBB Program as follows:

¹⁸ C5 South Link Expressway Project. (n.d.). Department of Public Works and Highways. <https://www.dpwh.gov.ph/dpwh/PPP/projs/c5south>

¹⁹ Metro Manila Skyway Stage 3 (MMSS-3). (n.d.). Department of Public Works and Highways. <https://www.dpwh.gov.ph/dpwh/PPP/projs/MMSS-3>

²⁰ NLEX Harbor Link Project (Segments 8.1, 8.2, 9 & 10). (n.d.). Department of Public Works and Highways. https://www.dpwh.gov.ph/dpwh/PPP/projs/NLEX_harbor_link

- Taguig City Integrated Terminal Exchange (TCITX) is an intermodal terminal for provincial buses that will provide safe and convenient transfer facilities to passengers, from the portion of the province of Laguna and Batangas going to Metro Manila and vice versa. The purpose of the terminal is to reduce the vehicle volume and improve the traffic flow in Metro Manila, particularly in EDSA.
- Metro Manila BRT Line 1 has a span of 12.3 kilometers from QMC to Manila City Hall via Elliptical Road, Quezon Avenue and España Boulevard conveniently accessible to MRT-3, PNR, LRT 1 and MRT-7 and expected to serve 291,500 passengers daily in its first year of operation²¹.

With regards to the bridges in Metro Manila, the Priority Seismic Improvement Project (Php 4,729.07 Million) consisting of the replacement of two major bridges namely: a) Lambingan Bridge (98.1 LM), and b) Guadalupe Bridge (114.44 LM) involves the structural measures to mitigate the effects/damage of a large-scale earthquake in the region.

The Bonifacio Global City - Ortigas Center Road Link Project to be implemented by the DPWH-RMC consists of a four-lane bridge with a total length of 613.77 lm across the Pasig River connecting to Sta. Monica Street in Pasig to Lawton Avenue in Makati and a four-lane viaduct with 347.66 lm traversing Lawton Avenue onwards the entrance of Bonifacio Global City (BGC). The public will benefit from shorter travel time between Taguig and Pasig from 1 hour to 12 minutes, reduce traffic congestion by 25% along Guadalupe Bridge at EDSA and Bagong Ilog Bridge at C-5 and better accessibility between the cities of Taguig, Pasig, Makati and Mandaluyong²².

Furthermore, the Pasig-Marikina River and Manggahan Floodway Bridges Construction Projects which is divided into two (2) financing facilities such as 1) China funding consisting of North and South Harbour Bridge in Mandaluyong/Makati City, Palanca-Villegas Bridge in Manila City with a total length of 3,393.90 lm (Php 9,694.46 Million), and Eastbank/Westbank in Cainta; and 2) ADB funding consisting of J.P. Rizal Mary Bridge in Marikina City, J.P. Rizal-Lopez Jaena Bridge in Marikina City and Marikina-Vista Real Bridge in Marikina/Quezon City with a total length of 3,187.30 lm (Php 1,451.13 Million) to improve the road network and increase the transportation capacity in the region.

²² Zoleta, V. (2021, April 11). Build Build Build: Road Projects to Expect in the Philippines. Moneymax. https://www.moneymax.ph/government-services/articles/build-build-build-philippines#5_BGC-Ortigas_Center_Link

Non-IFPs under Road Transport

The DPWH network development program like road widening and construction of concrete roads as well as other projects such as construction/rehabilitation of flyovers, tunnels, diversion roads, interchanges, retrofitting and widening of bridges are also included in the road transport investment programs to decongest Metro Manila and to make bridges earthquake resistant.

Water Transport

The Manila North Harbour Modernization Project Phase 2 includes the improvement of other facilities particularly the expansion of container yard and continuous quay length. Moreover, the Pasig River Ferry Convergence Program will be implemented by the MMDA (₱610.79 Million) and DOTr (₱130.57 Million) with a total investment of ₱741.36 Million. This program aims to establish a reliable, safe, affordable and efficient Pasig River Ferry System that will serve as an alternative transport mode and disaster response towards a more sustainable Metro Manila. The projects and activities include bikeway development, purchase of heavy duty trash skimmer, design and build for a floating docking facility for regular boat maintenance and repair, purchase of a multi-purpose rescue boat and construction of additional ferry stations in Maestranza, DBM, Kapasigan and Eastwood.

Table 26 summarizes the list of IFPs and non-IFPs under water transport.

Table 26. Non-IFPs under Water Transport

Project Title		Implementing Agency	Project Cost (₱ Million)
1.	Manila North Harbor Modernization Project	PPA-PMO-North/ DOTr	800.00
2.	Pasig River Convergence Program (Pasig River Ferry System Project)	DOTr	130.57
3.	Pasig River Convergence Program	MMDA	610.79

Rail Transport

IFPs under Rail Transport

In the rail transport, IFPs amounting to ₱557,762.00 Million (Table 27) that aim to improve the traffic situation in the region are as follows:

- Metro Manila Subway Project is the first underground mass transport system in the Philippines that will be implemented in two phases. The initial phase will cover the central zone in the North Capital Region between the cities of Valenzuela and Parañaque, while the second phase will cover the south zones. The objective of the project is to accommodate the increasing transportation demand of Mega Manila, as well as to alleviate serious traffic congestion in the region by constructing an urban railway line including a subway section²³. The Phase I project covers a 35-km underground rail which will run from Mindanao Avenue in Quezon City to FTI in Taguig City then to NAIA Terminal. There will be 13 underground stations traversing six (6) cities in Metro Manila such as the cities of Valenzuela, Quezon, Pasig, Makati, Taguig and a small portion of Parañaque. The project aims to decongest the traffic along EDSA, encourage more socio-economic activities in the area, and provide better connectivity via a north-south backbone for the Greater Capital Region²⁴.

Table 27. IFPs under Rail Transport

	Project Title	Implementing Agency	Length	Project Cost (₱ Million)
1.	NSCR System (PNR North 1 and PNR North 2)	DOTr	148 km	352,314.00
2.	Metro Manila Subway Project Phase I	DOTr	35 km	142,835.00
3.	LRT Line 1 South (Cavite) Extension Project	DOTr	11.70 km	20,438.00
4.	MRT - 4	DOTr	15.56 km	18,374.00
5.	MRT - 3 Rehabilitation and Maintenance Project	DOTr		9,767.00
6.	LRT 2 West Extension Project	DOTr	3.02 km	8,880.00
7.	LRT 2 East Extension Project	DOTr	4 km	3,066.00
8.	Unified Grand Central Station	DOTr		2,088.00
			TOTAL	557,762.00

²³ <https://www.dmsprojects.net/philippines/projects/dotr-metro-manila-subway-project-mmstp-phase-1/PRJ00024769>

²⁴ MMSP: Phase 1, Environmental Impact Statement Executive Summary. (2016). <http://eia.emb.gov.ph/wp-content/uploads/2016/06/EIS-Summary-for-the-Public-English.pdf>

- The NSCR System composed of the PNR North 1 and PNR North 2 involves the reconstruction of 148 km²⁵ railway lines from Tutuban to Clark and Tutuban to Calamba. The project will improve local, national, and international connectivity with the direct link to the international airport at Clark, making it a gateway to Asian destinations.
- LRT Line 1 Extension Project involves the extension of the existing 20.7 km by an additional 11.7 km of which approximately 10.5 km will be elevated and 1.2 km will be at-grade. The extension will start from the existing Baclaran Station and will traverse the cities of Parañaque and Las Piñas up to Niog, Bacoor, Cavite. The project aims to ease the traffic congestion in Parañaque-Las Piñas-Cavite corridor and improve the commercial development around the rail stations along the line and expected to benefit more than one million daily commuters²⁶.
- MRT 4 has a total length of 15.56 km rail-based transit system that will link parts of eastern Metro Manila (Quezon City, San Juan, Mandaluyong, Pasig and the Ortigas Center) and the province of Rizal (Cainta and Taytay). It is expected to serve 11 stations with an estimated initial daily ridership of 234,433 passengers²⁷.
- MRT-3 Rehabilitation and Maintenance Project is part of the DOTr's strategies to improve the operations of the railway system, ensure continued service delivery by establishing the Maintenance Transition Team (MTT) and purchase the needed parts as well as contracting a rehabilitation and maintenance service provider.
- LRT 2 West Extension Project involves the design and construction of the extension for the existing LRT Line 2 with a total length of approximately 3.02 km from Recto Station extending westward, from Recto to Pier North.
- LRT 2 East Extension Project covers approximately 4 kilometers from the existing station, Santolan Station at Marcos Highway with two additional stations the 1) Emerald Station and 2) Masinag Station near the junction of Marcos Highway. This project can accommodate an additional 80,000 passengers daily, boosting to 240,000 ridership daily for the entire rail lines upon completion of the 2 stations²⁸.
- Unified Grand Central Station of DOTr will connect the existing Light Rail Transit Line 1 (LRT 1), Metro Rail Transit Line 3 (MRT 3) and Metro Rail Transit Line 7 (MRT 7) for the safety and convenience of rail commuters.

Flood Control and Sewerage Management

IFPs under Flood Control and Sewerage Management

Pasig-Marikina River Channel Improvement Project (PMRCIP), Phase IV with a total amount of ₱18,172.49 Million (Table 28) is included in the investment program to mitigate and control the flooding in the region.

Table 28. Non-IFPs under Flood Control and Sewerage Management

	Project Title	Implementing Agency	Project Cost (₱ Million)
1.	Metro Manila Flood Management Project, Phase I (MMFMP I)	DPWH-UPMO-FCMC	8,208.08
2.	Flood Management and Mitigation Program	MMDA	5,523.47

Non-IFPs under Flood Control and Sewerage Management

MMDA and the DPWH will implement the Metro Manila Flood Management Project, Phase I (MMFMP I) which aims to reduce vulnerability and strengthen resilience against flooding through the modernization of existing pumping stations, improvements on appurtenant infrastructure, construction of new pumping stations, among others. Furthermore, MMDA implements the Flood Management and Mitigation Program as one of its regular programs. It covers regular infrastructure projects and the continuous maintenance and rehabilitation of waterways and drainage systems and all existing pumping stations in Metro Manila to restore and make the systems more efficient in discharging floodwaters in the shortest possible time.

Table 29. Non-IFPs under Water Resources

	Project Title	Implementing Agency	Project Cost (₱ Million)
1.	Putatan Water Treatment Plant 3 (Poblacion Water Treatment Plant)	Maynilad/MWSS	6,565.00
2.	Modular Mobile Treatment Plant-Marikina River	Manila Water/MWSS	638.06
3.	Cloud Seeding Operation at Angat Dam and La Mesa Watershed	Maynilad/MWSS	2.20

Likewise, DPWH will implement several drainage and bank improvement projects and construction of flood mitigation facilities and structures. In essence, these projects will increase the total flood-protected areas vis-a-vis the total flood-susceptible areas in the region.

Water Resources

With regard to water resources, MWSS together with its concessionaires will implement three (3) projects namely: 1) Putatan Water Treatment Plant 3 (Poblacion Water Treatment Plant), 2) Modular Mobile Treatment Plant-Marikina River, and 3) Cloud Seeding Operation at Angat Dam and La Mesa Watershed to ensure water security in the region in the total amount of ₱7,205.26 Million (*Table 29*).

The MWSS, together with MWSI, is also pushing to replenish groundwater supplies through cloud seeding operations to bring artificial rain to Metro Manila's existing dams amid the lack of rains and to prevent the further decline of water level in Angat Dam²⁹.

Social Infrastructure

DepEd-NCR will implement projects specifically on the construction and rehabilitation of new and existing classrooms to contribute to the attainment of increasing classroom-to-pupil ratio by 2022. These projects are packaged under DepEd's School Building Program. Also, electrification of schools; provision, repair and rehabilitation of water and sanitation facilities; and the provision of basic education facilities will also be implemented to realize the outcome of providing sufficient, safe and accessible social infrastructure facilities and services. These projects will be implemented through DepEd's School Building Program and Electrification of Schools On-Grid Program.

SUCs namely MPC, PNU, PSCA, PUP, RTU and TUP, UP will also implement infrastructure projects for the improvement of university facilities and delivery of quality services including the construction of school buildings to provide additional classrooms and learning facilities for students and teachers, as well as the construction and rehabilitation of decades old school utilities to provide the necessities of the public. These projects will contribute in improving the classroom-to-pupil ratio. SUCs will also construct convention centers, gymnasiums, and sports facilities, rehabilitate their respective electrical systems and water and drainage systems, and to improve further the social, economic and environmental sustainability of these utilities by installing and constructing technologies such as building management systems and electrical substation.

²⁹ PH gov't moves to conduct cloud seeding operations around Angat Dam. (2020, March 11). Manila Bulletin. <https://mb.com.ph/2020/03/12/ph-govt-moves-to-conduct-cloud-seeding-operations-around-angat-dam/>

³⁰ DOTr polishes cashless, automatic fare collection system for public transportation. (2021, January 5). Philippine Information Agency. <https://pia.gov.ph/news/articles/1063062>

Information and Communication Technology (ICT)

IFPs under ICT Subsector

The DOTr will implement the Automated Fare Collection System which is a national cashless base payment system for all modes of transport particularly for the modern public utility jeepneys, public buses and trains. This project will result into a secured payment system, improved passenger convenience, and lessened card-issue and management costs for transit operators³⁰.

Furthermore, the Road Transport Information Technology Infrastructure Project Phase 1 (LTO IT) with a total investment of ₱3,996.20 Million will be implemented by DOTr- LTO which covers the development, customization, and maintenance of LTO's ICT system for its licensing and vehicle registration functions.

Meanwhile, the DICT will implement the National Broadband Program, as part of the IFPs, to enhance and build a pervasive broadband infrastructure to address the growing demand for connectivity and in supporting socio-economic growth through digitization of processes, work-from-home setups, empowering MSMEs and tourism, and facilitating seamless exchange of data and information between and among government units/entities. *Refer to Table 30.*

Table 30. IFPs under ICT Subsector

	Project Title	Implementing Agency	Project Cost (₱ Million)
1.	National Broadband Program (IFP)	DICT	1,059.43
2.	Automated Fare Collection System	DOTr	2,955.00
3.	Road Transport Information Technology Infrastructure Project Phase 1 (LTO IT)	DOTr	3,996.20
		TOTAL	8,010.63

Non-IFPs under ICT Subsector

To ensure that there will be effective, consistent, interconnected affordable ICT facilities and services, the DICT will implement the Free Wi-Fi Internet Access in Public Places and SUCs Program to provide faster and accessible internet connectivity and enhance the existing digital infrastructure. This will also address the current needs in the context of the new normal. All 17 LGUs in the region will also benefit from this Program.

Other programs include the establishment of Digital Transformation Centers (DTCs) to capacitate ICT startups in the region in their innovation efforts through training and capacity development opportunities; the Government Emergency Communications System (GECS) Project which primarily focuses on information dissemination using ICT in disaster risk reduction and management and provides an integrated framework to optimize all government ICT resources and networks; and Digital Workforce Project through the ICT Academy which aims to bridge the skill gaps to transition to the demands and needs of the new normal. It focuses on building the capacities of Filipino workers by upskilling and reskilling the workforce.

Table 31 summarizes the list of non-IFP P/Ps under ICT.

Table 31. Non-IFPs under ICT Subsector

	Project Title	Implementing Agency	Project Cost (₱ Million)
1.	Free Wi-Fi Internet Access in Public Areas	DICT	3,097.47
2.	Establishing Digital Transformation Centers to Develop the Local ICT Innovation Ecosystem	DICT	820.62
3.	Government Emergency Communications System (GECS) Project	DICT	15.50
4.	Strengthening the Digital Workforce through the ICT Academy	DICT	112.82

Investment Program under the Development Administration Sector

LRTA-004	Systems and Facilities Improvement, Rehabilitation and Modernization Program	Upgrading and Replacement of Passenger Information Display (PID) System in LRTA Line 2	Line 2 Revenue Line	-	-	50,000,000.00	50,000,000.00	GAA	LRTA	2022-2023	The project covers the decommissioning, supply, delivery, installation, testing and commissioning for the upgrading and replacement of PID System for LRT Line 2 System. This project intend to provide the riding public real time information such as train schedule, announcements, safety information or messages for passengers along the LRT Line 2 revenue line	Capital Investment	Proposed
LRTA-005	Systems and Facilities Improvement, Rehabilitation and Modernization Program	Modification of 1.5 KV DC Positive Box	Line 2 Revenue Line	-	-	85,000,000.00	85,000,000.00	GAA	LRTA	2022-2023	This project involves the replacement of all positive boxes with disconnect switch option that will serve as the isolator for the 1.5kV feeder system, adopting the design that was implemented on the Line 2 East Extension. The previous fire incidences on the positive box are most likely the weak point on the DC feeder system. Thus, the project aims to ensure the reliability and the provision of safe power supply with complete protection of DC Power Supply Network System.	Capital Investment	Proposed

No.	Priority Program	Project/Activity	Location	Funding Requirements (in ₱)				Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
				2020	2021	2022	Total						
LRTA-006	Systems and Facilities Improvement, Rehabilitation and Modernization Program	LRT Line 2 General Repainting	Line 2 Depot, Marcos Highway Santolan, Pasig City	-	-	25,000,000.00	25,000,000.00	GAA	LRTA	2022	This project aims to preserve and improve over-all structure of the depot buildings by protecting them from the adverse impact of atmospheric action such as oxidation and corrosion; also provides a conducive working environment and an aesthetic appeal for the LRTA Line 2 Depot	Capital Investment	Proposed
LRTA-007	Systems and Facilities Improvement, Rehabilitation and Modernization Program	Systematic Replacement of All Roll-up Grilles at Line 2 Stations	Line 2 Revenue Line	-	-	15,000,000.00	15,000,000.00	GAA	LRTA	2022-2023	The project covers the decommissioning, supply, delivery, installation, testing and commissioning of Roll-Up Grilles at LRT Line 2 Stations. The project aims to improve safety and security of station facilities, equipment and for the riding public as well.	Capital Investment	Proposed
LRTA-008	Systems and Facilities Improvement, Rehabilitation and Modernization Program	On-Board Video Monitoring with Mobility Technology for Trainsets	Line 2 Depot, Marcos Highway Santolan, Pasig City	-	-	65,000,000.00	65,000,000.00	GAA	LRTA	2022-2023	The project covers the decommissioning, supply, delivery, installation, testing, and commissioning of On-Board Video Monitoring for Trainsets. This project aims to secure the critical areas from any unforeseen incident or individuals deemed as threat to the facility's functional operations and general security.	Capital Investment	Proposed
LRTA-009	Systems and Facilities Improvement, Rehabilitation and Modernization Program	Upgrading of Train On-Board Signaling System	Line 2 Depot, Marcos Highway Santolan, Pasig City	-	-	812,000,000.00	812,000,000.00	GAA	LRTA	2022-2023	The Project will replace the existing onboard signaling system for fourteen (14) trainsets. Difficulties are experienced in sourcing the parts due to the obsolescence of its components. Thus, it is more practical and beneficial to the system to upgrade and replace the trains' signaling system. This will ensure its reliability and significantly enhance the safety and security of the riding public.	Capital Investment	Proposed
LRTA-010	System and Facilities Improvement, Rehabilitation and Modernization Program	Acquisition of Rescue and Emergency Road/Rail Vehicle	Line 2 Depot, Marcos Highway Santolan, Pasig City	-	65,000,000.00	-	65,000,000.00	GAA	LRTA	2021-2022	The project covers the supply, delivery, testing, and commissioning of one (1) unit of Rescue and Emergency Vehicle with Road and Rail Capability. This project intends to procure a dedicated rescue and emergency vehicle, which will be employed during an accident and/or derailment. The vehicle can also be used for hauling purposes to maximize its capability. It will enhance the safety and security of the riding public and LRTA Personnel/Maintenance and operations crew in the revenue line as well.	Capital Investment	Ongoing

To capacitate the students in providing quality facilities, the main service feeders of the six buildings need to upgrade and modified to meet the demand of the of the electrical power loads of the classrooms equipment of ICT and science laboratories facilities of the university.	Capital Investment	Ongoing

No.	Priority Program	Project/Activity	Location	2020	Funding Requirements (in ₱)		Total	Funding Source	Responsible Agency/ies	Implementation Period	Description	Typology	Status
					2021	2022					The electric distribution network consist of a number substations connected to each other via feeders. A feeder is an electric conductor carrying power from a sub-station to meet load demands along its route. The sum of the capacities of the feeders connected to a sub-station gives its feeder capacity. When the load demand at a sub-station exceed capacity, the excess load can either be redistributed to other sub-station or the feeder capacity can be increased by installing a new feeders.		
PNU-002	Higher Education program	Construction of the PNU Convention Center and Training Center as provided under RA 9647 (PNU Modernization Act)	PNU Manila Campus	-		363,090,000.00	363,090,000.00	GAA	PNU	2021	In 2009, PNU was declared as the National Ceter for Teacher Education by virtue of RA 9647. It is mandated to champion Teacher education in the country. This project is essential in capacitating PNUs infrastructure to complement the human resource capability building for the university to fullfill its mandate of producing not only teachers and education leaders but more importantly capacitating other teacher education institutions as well.	Capital Investment	Ongoing
PNU-004	Higher Education program	Construction of International House (5-Storey Building)	PNU Manila Campus	-		219,807,048.00	219,807,048.00	GAA	PNU	2021	This building is one of the three buildings of the proposed PNU NCTE Complex, and will serve as a support structure for the trainings and conventions of PNU as the National Center for Teacher Education (NCTE). It will also serve as Dormitel at par with ASEAN to position PNU as an educational hub in ASEAN. The architectural and engineering design for this project is already completed.	Government Facility	Proposed

				2020	2021	2022							
											PNU also concerned that the water waste it produces does harm the environment especially the nearby streams/rivers/bay. PNU as the learning institution embraces the sustainable development goals 2030. Agenda and Philippine development plan which aim to provide quality, clean water and sanitation by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, having the proportion of rntreated wastewater and substantially increasing recycling and safe reuse globally. The proposed sewerage treatment plant and improvement of drainage system of the University also supports the Republic Act 9275 also known as the Philippine Clen Water Act of the Philippines.		
											To comply with the requirements of the Department of Environment and Natural Resources (DENR), the improvement of drainage lines with installation of STP via containerized wastewater treatment plants is necessary. The proposed comprehensive wastewater treatment needs to meet the effluent standards using the Membrane Bioreactor Technology (MBR) to treat the waste water and discharge to the body of water a clean safe and quality water and to conform to the standards sets by DAO 2016-08 DENR which states that "treated water shall CLASS B - Recreational Water Class I intended for primary contact reaction (bathing, swimming etc.)".		
											The proposed STP will adopt containerize wastewater treatment technology that will be connected to the drainage system and local septic tanks using pump and with the treated effluent water having met local standards and can be then discharge to the body of water or recycled for cleaning or toilet flushing with a capacity of 300 cubic meter per day. The containerized wastewater treatment is easy to install and with proper maintenance it will last mor than 10-20 years. The reuse of treated water will reduce the water consumption of the University.

PNU-007	Higher Education program	Proposed Installation of Building Management System	PNU Manila Campus	-	-	65,000,000.00	65,000,000.00	GAA	PNU	2021	PNU in Taft Avenue, Manila, houses several of the old buildings in Metro Manila that have existed for more than 100 years now. While they are not as old as the heritage ones, other buildings also need to be given urgent attention. While it is good to celebrate the heritage and the rich history the building represents, it is also imperative that the facilities' users be well protected in natural and human-made calamities. There is a demand to ensure the safety of our stakeholders while occupying or using our buildings. They must conform to the statutory requirements of the National Building Code of the Philippines, Fire code of the Philippines, PWD and Senior Citizens law, and Disaster Risk Reduction Management requirements in preparation for the Big One (the killer Quake).	Capital Investment	Proposed
											PNU is identified as a critical lifeline by Oplan Bangkal, and the University is expected to provide a safe refuge in case of emergencies. There is a need to assess the structural integrity of the 27 buildings of PNU and guarantee that they will stand the Big One's impact. Building Management System is an intelligent microprocessor-based controlled network installed to monitor and control a building's technical systems and services such as airconditioning, ventilation, lighting, and hydraulics. More specifically, they link the functionality of individual pieces of building equipment to operate as one complete integrated system. In every major building, there is a need to install the necessary equipment to operate as one complete integrated system.

				2020	2021	2022	Total						
PNU-008	Higher Education program	Proposed Construction of Power Substation with Renewable Energy Source	PNU Manila Campus	-	-	95,000,000.00	95,000,000.00	GAA	PNU	2021	In order to PNU to fulfill its mandate as the National Center for Teacher Education and Implement its modernization program, there is a need to prioritize the construction of power sub-station with a renewable energy source that will distribute electricity to different buildings in the University and produce clean energy to help our environment mitigate the threats of climate change. Currently, PNU has no existing power sub-station, and it continued to experience electrical overloading issues, specifically on its electrical equipment and facilities. With the current construction of two additional buildings and procurement of new electrical equipment and facilities for instruction, research, and development, PNU foresees that it will increase its electrical demand over the next years.	Capital Investment	Proposed
											Thus, this proposal prepares the university to address the said need. The power sub-station's functions include: • The interconnection of power lines from different parts of the system; • Monitoring and controlling system operating conditions; and • Protecting the power system equipment.		
											Power sub-station links the transmission system to the sub-transmission system, stepping the voltage through a transformer (transformer sub-station) or linking high-voltage transmission lines from different parts of the system without changing the voltage (switching sub-station). The substations' primary function is to provide an interconnection between transmission lines extending to other geographical areas and between parts of the system that may be operating at different voltages. Principal breakers are large electrical switches that can disconnect the transmission lines or transformers from the bus. Transformers provide a change in voltage.		
											The Government of the Philippines, through the Renewable Energy Act of 2008, declared it the policy of the state to accelerate the development and utilization of the country's renewable energy resources, specifically Solar, Wind, Run of River and Biomass power and to this thus PNU is committed to its adherence.

					2021	2022					Solar energy is a renewable free source of sustainable and totally inexhaustible energy, primarily due to our sun's everyday presence, as unlike other renewable sources, which require finite locations and costly to construct. It is also a non-polluting source of energy, and it does not emit any greenhouse gases when producing electricity. By harnessing solar energy using solar panels and inverters installed on building walls, rooftops, and idle open spaces, we can supplement our partial energy consumption. Using solar power means reducing our energy bills and saving money. It is also low maintenance and unobtrusive. Installing solar panels adds value to our buildings, and it can last up to 25 years of problem-free operation as long as it is properly cleaned and maintained.

The Master Plan aims to reduce vulnerability and strengthen resilience against floods. A total of 1.7 million people (about 370,000 households) are considered the direct beneficiaries of this Project but may be changed depending on the final selection and number of drainage areas to be covered by the Project. The Project, in cooperation with the Department of Public Works and Highways, is under the financial support of the World Bank Group-International Bank for Reconstruction and Development and Asian Infrastructure Investment Bank (AIIB). The Project implementation started last 2017 and expected to be completed in 2023. It specifically addresses the structural measures to improve urban drainage in Metro Manila. It will be achieved through an integrated set of interventions to modernize existing pumping stations and make improvements to appurtenant infrastructure; construct new pumping stations to	Capital Investment	Ongoing
MMDA-004	Expanded Implementation of Intelligent Transport System (ITS)		NCR	179,180,682.50	781,881,021.44	1,281,200,000.00	2,242,261,703.94	GAA	MMDA-TEC/Metrobase	2016-2024	The worsening traffic congestion in Metro Manila necessitated the adoption of an Intelligent Transport System (ITS) to help alleviate traffic condition and enhance the traffic management effort which serve as one of the decongestion measures of the Authority. Traffic and Transport systems are networks. Their effectiveness and efficiency are measured by their capability to interact or exchange ideas and information among components of the networks such as the road users, roadways, road facilities, operators and management of the networks.	Capital Investment	Ongoing
											To address the inherent challenges of a growing metropolis such as congestion, weak law enforcement and pollution, the MMDA decided to adopt the recent trend, worldwide application of an Intelligent Transport System (ITS). This will lead the metropolis into a Metro Manila SMART City. A study on the ITS was primarily done to serve as a road map for the envisioned upgrading of the existing Metro Manila Traffic Signal System and related facilities and equipment, signalization of new warranted intersections and associate works into the latest cutting edge technology in ITS that is multi-disciplinary, multi-functional and holistic.

											The expansion project of traffic signalization of new warranted intersections, now with LED lighting would greatly help in the safety and efficiency traffic management in the Metropolis. In addition, the integration of traffic signal system to the newly installed SMART Center Platform will establish standardized linkages to realize seamless operations of all existing and future system of the Authority. It will also establish linkages of all cities and concerned agencies in Metro Manila that will contribute to an efficient overall transport and traffic management, disaster and crime prevention and safety enhancement that ultimately leads to a Metro Manila SMART City.		
											The expanded implementation of ITS will include implementation of Traffic Signalization, Vehicle Detection System (VDS), Variable Message Signs (VMS), Traffic Signal Enforcement System (TSES), Speed Violation Enforcement System (SVES), and Fiber Optic Communication System. For the street lighting projects, it will include replacement of existing 250 watts high pressure sodium bulb with 120 watts LED luminaires that will reduce the energy consumption and reduce carbon footprint and installation of streetlights for black spots or accident prone areas.
